SAMPLES

A Teachable TEACHER

This authentic writing activity is perfect for the end of the school year. However, it can also be used during staff/teacher appreciation week, administrative professionals day, field trips, and more!

DIRECTIONS

1

Decide if you want to print the cards with primary handwriting lines or with solid writing lines. Then print/copy as many as you need. Have students color and/or draw a picture.

2

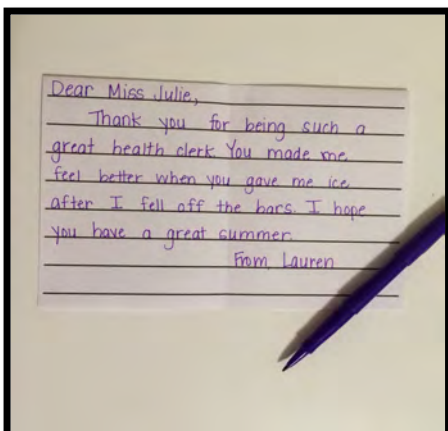

After coloring, fold the paper in half vertically (hamburger style).

3

Next, keeping the writing lines "inside," fold the front cover horizontally. Now it opens like a card!

4

Finally, students write a message on the inside of the card!
