Answer keys included for EVERY maze - use for students to check their work

(highlighted in blue for readability but will only be shaded gray in the PDF)

Teacher directions included to help for easy implementation

Teacher Helper

Your students are going to LOVE these Word Family Mazes! These mazes give your students the opportunity to practice blending sounds, reading CVC words and building fluency. Once you explain the directions to your students, they will be able to independently use these mazes for centers, word work, independent work, morning work, and even a fun homework assignment! Here is how it works:

Start at the bolt.

Look for a word in the designated word family. Words must be touching side to side, and not at a corner.

Students need to work their way to the robot.

Once students have read and colored their way through the maze, they can practice reading the path. When they read, they are practicing rhyming and fluency.

*Challenge students by asking them to read all the words in the maze, even the ones that do not belong in the word family!

Happy Teaching! ☺

So Many Ways to Use These Mazes!

-  **Word work centers**
-  **Small group warm-ups**
-  **Morning work**
-  **Fluency practice**
-  **Sub plans**
-  **Homework**

**Engaging
way to
practice
blending and
decoding!**

Let's Build Fluency - One Maze at a Time!

- 17 CVC word family mazes
- Answer keys for every maze
- The Science of Reading aligned
- Engaging & effective

Click *Add to Cart* & watch your students build blending & decoding fluency!
