Although we no longer teach cursive in our district, I had several students begging to learn. This resource was just what I needed to provide them some independent practice and many worked on it with a parent. Thank you!

This packet is amazing. My kids did one sheet a day. They were able to follow along. It was immensely helpful that each sheet showed the arrows and directions on how to form the letter. The kids also enjoyed not just writing the letter but getting to use the letter in a word.
