## reading comprehension

### Pre-Primer and Primer

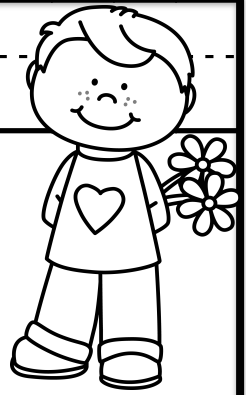

Thank you for your interest in Kindergarten Valentine Comprehension Passages! These passages were designed specifically for emergent readers. I wrote these passages using pre-primer and primer sight words. All other words in the text have picture clues above them. This will ensure even your emergent readers will be able to enjoy these passages!

In order to build fluency, students are to read each passages three times. They should color a picture in the bottom right of the page each time they read.

There are two comprehension questions per passage. Answer options utilize picture clues as well. All answers can be found in the text. Students circle the correct response at the bottom.

An editable journal cover is provided. Your students will love their personalized reading comprehension journal!
