**1** Put the sentences on rings!

Prep it once and use it over and over, year after year! You will need small book rings and a hole punch! I printed the pages on paper and then laminated them, but printing on cardstock would be much easier (and faster)!

## 2 Ways to Use

\*Diphthongs shown in this example\*

## Let your students do the work with "make and take" books!

# 2

Print and give students the page with the target phonics skill. Have them cut on the dotted lines and then stack the strips. Staple them together on the left hand side. Voila!

I used these as in-class resources for my Intervention students. I printed them on bright paper so that they were easy to read and "fun" to work with.
