Pre-Primer and Primer

Thank you for your interest in Kindergarten Summer Reading Comprehension Passages! These passages were designed specifically for emergent readers. I wrote these passages using pre-primer and primer sight words. All other words in the text have picture clues above them. This will ensure that even your emergent readers will be able to enjoy these passages!

In order to build fluency, students are to read each passage three times. They should color an ornament each time they read.

There are two comprehension questions per passage. Answer options utilize picture clues, as well. All answers can be found in the text. Students circle the correct response at the bottom.

An editable journal cover is provided. Your students will love their personalized reading comprehension journals!
