THE BUNDLE

1 Put the sentences on rings!

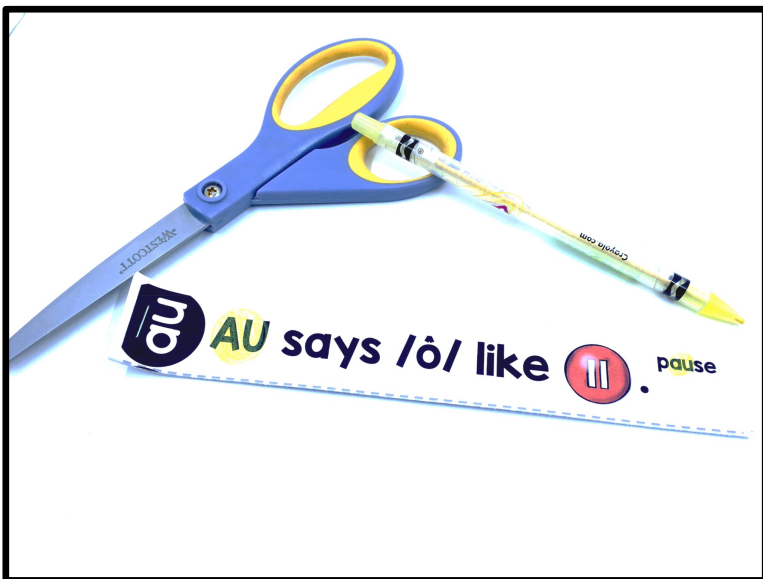

Prep it once and use it over and over, year after year! You will need small book rings and a hole punch! I printed the pages on paper and then laminated them, but printing on cardstock would be much easier (and faster)!

2 Ways to Use

Let your students do the work with "make and take" books!

2

Print and give students the page with the target phonics skill. Have them cut on the dotted lines and then stack the strips. Staple them together on the left hand side. Voila!

★★★★★ Extremely satisfied

I have used these sentences with my daughter for the last two years. I like that they are easy to put on a ring and hang and I also like it allows for mastery and just plain fluency practice. Learning those harder sounds is always difficult, but using words that are actual words and not nonsense words is important. LOVED this!
