★★★★★ Extremely satisfied

Thank you for making such a thoughtful resource. I love how these are grouped by phonics skill and encourage rereading to build fluency with the little smiley faces for students to color in each time they read the story. I can easily assess, too, whether students are understanding what they read by seeing how they're doing with the comprehension questions that follow, too.

This is exactly what I was looking for! I needed a shorter decodable that I could still tie into our phonics skill. Great for small groups, some students even prefer these to the decodables from our curriculum.
