E **Night Flying** Name _____
It was Ben Bat's first night to fly by himself. "Mom, I am scared," Ben said. "Why are you scared?" she asked. "It is dark. What if I fly into a wall?" Ben said. His mom laughed. "That would be scary. You do not have to worry, Ben," she told him. "Why not?" Ben asked. "Bats are special. Just make a sound, and listen for it to come back. Then you will not hit anything," she said. Ben tried it. "Wow, I can see!" he said.

① What do you think Ben was scared of?
② How did his mom help him?

A Name _____
Vocabulary
eyes ears feet wings

B Name _____
Vocabulary
hear see hang fly

C Name _____
Vocabulary
eyes ears feet wings

D Name _____
Vocabulary
eyes ears feet wings mouths

E **Echolocation** Name _____
Vocabulary
echolocation bat object echo

The bat has _____
It can see _____
The bat has _____
It can hear _____
The bat has _____
It can hang _____
The bat has _____
They use them to hear. Bats have feet. They use them to hang. Bats have mouths. They also use them to catch insects.

① How does the bat use its mouth?
② How might the bat use its feet?

Did you know that bats fly at night? They can see with their eyes during the day. At night when it is dark, they use echolocation. They send out noises with their mouths. The noises bounce off of objects. Echoes come back. The bats hear the echoes and can tell where the objects are. They can make sure that they do not fly into them. That is how bats fly at night.

① Why do bats use echolocation?
② When do bats fly? during the day at night

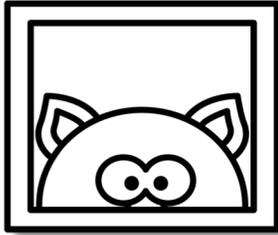

Example Theme: Bats	Total Passages Per Theme: 10
Themes Per Month: 5	Total Passages Per Month: 50

Differentiation made EASY!

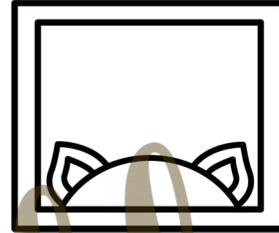

A

Name _____

Bat Can

Bat can see.

Bat can hear.

Bat can hang.

Bat can fly.

① What can Bat do?

swim

fly

run

② What else can Bat do?

hang

jump

flip

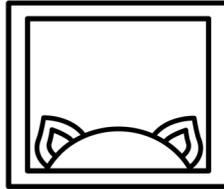

B

Name _____

Bats

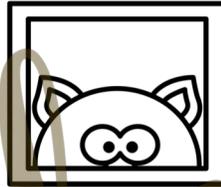

I see the ears.

• • • •

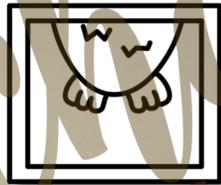

I see the eyes.

• • • •

I see the feet.

• • • •

I see the wings.

• • • •

I see a bat!

• • • •
