★★★★★ Extremely satisfied

I am a reading intervention teacher and this has been such a great visual to display on the wall! As I teach different spelling patterns, these posters have really helped my students grow confident with their reading and spelling, especially as many of them are behind grade level and have some learning disabilities and truly need the visual to constantly refer to! This is a fabulous resource and I would highly recommend it to any primary classroom and teacher!

I wanted something that I could use as I introduce phonics sounds but could also keep up and refer to throughout the year. This is exactly what I needed and worked perfectly! Thanks! A+
