This resource had multiple examples of Multisyllabic words. It was a great resource to find the words, split the syllables, and easily show the students that the vowels in each syllable can help you. Great resource

ar **My Big Brother**

My brother's birthday is right around the corner! His birthday is on March fifteenth. This year, he is very particular about what he wants for his birthday. He wants a birthday party, but not just the standard birthday party. Carl wants a backyard birthday party with animals.

What animals does he want at his birthday party, you ask? He wants some very strange animals! Carl wants a buzzard, a leopard, and a lizard at his birthday party. He also wants a specialist to be there to teach him and his friends about these animals.

At first, our parents did not want to give him this kind of birthday party. They thought that it might be awkward, but Carl convinced them that it would work. "It's not like we live in an apartment! We have a beautiful back yard for the guests and the animals," Carlos remarked.

Our parents have worked really hard to plan Carl's birthday party. They have an animal specialist bringing lizards, leopards, and a buzzard. I am sure they will feel very rewarded when Carl and his friends are enjoying his peculiar birthday party.

This is a fantastic resource for teaching my ELLs how to decode and deconstruct multisyllabic words! My students enjoyed applying the rules for segmentation and then reading the word!

This multi-syllabic pack is my favorite TPT resource of all time!!!!!! I wish all of my resources were so easy to manipulate virtually. The kids really enjoy these fun and entertaining stories. This packet helps with phonics, spelling, vocabulary, and writing. It's a blessing to have everyday -especially when the kids are looking forward to finding the focus words, answering questions, sharing their sentence, and volunteering to read even though it is hard for many Special Education students to do so. They really and truly enjoy this packet and it is made so much easier for me with bundle.
