My students get the much needed review and practice using the various worksheets. They enjoy reading the little booklets and are anxious to read them to their families during the week. I appreciate that the work is based on the science of reading and that there are so many options to choose. I can select the right activity to meet each child's needs. I also have confidence in the products that they are well edited and without errors!

Students will have:

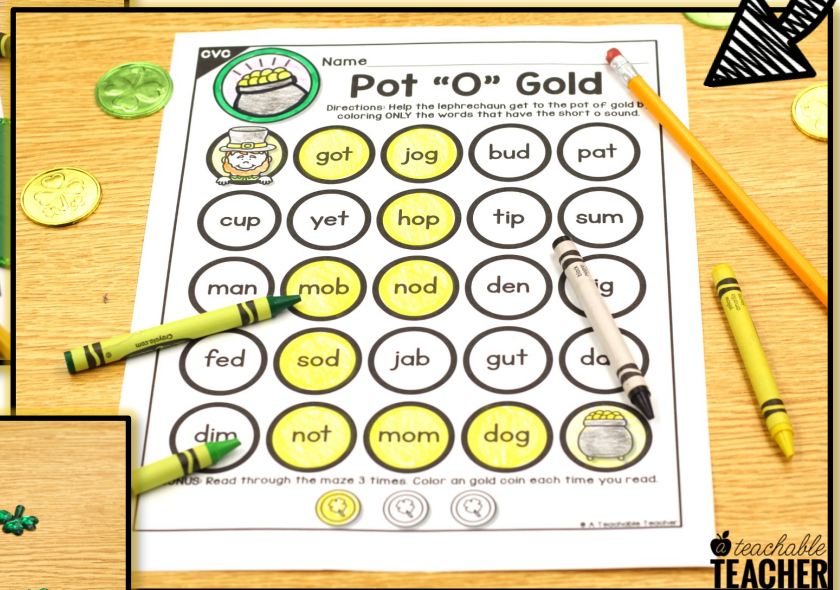

- ✓ phonics in context
- ✓ targeted practice
- ✓ differentiated practice

I buy all of Lauren's themed bundles. I love them! I am currently teaching Kinder but can use this packet to differentiate for my students in centers. The worksheets in each packet follow a predictable pattern, so my students are able to do them easily without repeated directions. There are some pages I use whole group and some I keep specifically for my students who are reading independently. I have previously used her themed bundles with 1st grade and they are perfect! Thanks!

Frequently Asked Questions

Is there an answer key included to help identify the pictures?

There are clipart/picture keys at the bottom of the cut and glue sorting pages. Feel free to email me a specific page you need help with if you don't see the clipart key.

Can I buy just one skill?

Yes! Each skill is available for purchase separately.

Are you planning to add more to the bundle with additional skills?

This bundle is complete with letter sounds, CVC words, digraphs, and blends. I am currently considering creating another bundle that will include CVCe, long vowel teams, r-controlled vowels, and diphthongs.

I bought one of the individual packets, and now I want the bundle. Can I get a discount?

TpT does not allow sellers to process refunds. However, they will refund you if you buy both. After buying the bundle, email them and ask for the individual item to be refunded.
