

DEFINING THE OUTDOOR
COMMERCIAL GRILLING EXPERIENCE
SINCE 1966

COMMERCIAL GRADE GAS GRILLS & OUTDOOR PATIO HEATING FROM AEI

Our company founders were there in the spring of 1958 when the gas grill was invented... and AEI Corporation has been a part of this industry ever since! Today we offer the finest collection of gas grills specifically designed for commercial use.

The label, "commercial grade" is often an over-hyped and over-used term describing simple residential-grade products with misleading labels. Our definition is not misrepresented! PGS grills are designed and meticulously engineered to withstand the rigors of multiple families or guests sharing it. Our grills are constructed of rugged and highly durable materials, and easy to use ensuring reliable performance day in and day out. In addition, our grills are built with long-lasting features that provide both durability and safety, such as laser etched control panel instructions and our **PGS FuelStop®** one-hour gas flow timer. Finally, our products are backed with an industry leading warranty and replacement parts availability.

T SERIES 304 Stainless Steel Commercial Outdoor Grills

Our T SERIES Pacifica and Newport commercial grills feature:

- Exclusive PGS FuelStop® one-hour mechanical gas flow timer – ETL/ Intertek approved
- All series 304 commercial grade stainless steel cooking grids, stainless radiant grates, side shelves, pedestals, mobile mounts, grill bodies and fasteners
- Self contained continuous spark electronic ignition
- All ceramic cast briquettes provide even heat and outstanding cooking performance
- Cross-over lighting ports and down draft back-up ignition tube for added safety
- Laser etched control panels for long term safety and durability
- Anti-theft control knobs
- Multiple mounting options – masonry, permanent pedestal or portable mount
- Natural gas or propane installation – LP and NG regulators are included
- We're leading the industry with a ONE YEAR full parts replacement warranty for all components used in a commercial installation
- Complete replacement parts – available when you need them!
- "Peace of Mind" – AEI Corporation has been a major supplier of commercial grade outdoor cooking and heating products since 1966!
- Our Newport S27T has 540 square inches of cooking area and our Pacifica S36T has 720 inches of cooking area

Built-in mechanical PGS FuelStop® one-hour gas flow timer and control panel featuring laser-etched operating instructions

Lets Talk Green & Safety

Over the years, we've often been told by unhappy property managers that their community grills have been left on after use. A real safety hazard and a significant waste of precious energy. Our solution? The *PGS FuelStop*® - our exclusive, built-in mechanical one-hour gas flow timer that shuts off the gas supply after one hour of use. Want to cook longer? Just reset the timer.

Combine this great energy saving feature with our commitment to producing high efficiency burner systems, our use of materials that quickly deliver heat to the cooking grids, and the result is the ULTIMATE "green" Performance Grilling System! PGS grill materials are chosen to last, which keeps our grills on your patios and common areas - and not in a landfill.

PERMANENT PEDESTAL MOUNT Commercial Outdoor Grill

NEW FROM PGS AND AEI CORPORATION!

In addition to our masonry and portable mounting options is our all stainless steel permanent pedestal mount. Designed for natural gas installations, this unit securely mounts our S27T and S36T grills onto any deck or patio. The pedestal comes fully assembled - simply secure feet to deck, connect the gas supply to grill head, attach the side shelves and the grill is ready for use!

S27NPED & S36NPED Pedestal Mount Exclusive Features:

- Fully assembled pedestal includes two stainless steel fixed side shelves
- All components and fasteners are commercial grade series 18 gauge 304 stainless steel
- Four pre-attached and pre-drilled mounting feet that allow for a secure and permanent installation
- Feet that set height of grilling surface at 34" to comply with ADA indoor range height requirement
- Optional feet (item #10419) raise grilling surface 2" to traditional 36" grill height are available
- Four possible entry points for gas supply – we can provide code-approved shut off valves and connectors
- Five year structural warranty
- Produced with pride in the USA!

Our Performance Grilling System is an industry exclusive

Cooking grid, ceramic briquettes, burner system and back-up lighting port interior of PGS Newport S27T.

Pedestal Interior. Four entry points allow for easy gas connection hook-up.

Standard feet comply with ADA indoor height requirements.

Also available - 4" feet. (ITEM #10419)

T SERIES Aluminum Commercial Outdoor Grills

When performance, safety, long term durability, and value for the dollar are the objectives, our T Series collection of aluminum grills, made of rugged, permanent mold aluminum, have been the best choice on the market for decades. Simply stated, they require significantly less maintenance to keep them looking great longer than anything else available today. PGS offers two different series of aluminum grills – models T40 and T30, available with built-in timers, or models A30 and A40 without timers.

T40 Our T40 all aluminum grill head combines the *PGS FuelStop*® one-hour gas flow timer, twin 20,000 BTU burners, 434 square inches of commercial grade stainless cooking grids, electronic (AA battery powered) ignition, and a wide variety of mounting options, including a 48” in-ground post, a 24” aluminum post with weatherproof base (AMPB), and a large pedestal (available in stainless or powder coated black) with an all-cast aluminum patio base. The T40 comes standard with two stainless steel folding side shelves.

T30 Our T30 all aluminum grill head combines the *PGS FuelStop*® one-hour gas flow timer, twin 15,000 BTU burners, 330 square inches of commercial grade stainless cooking grids, electronic (AA battery powered) ignition, and a wide variety of mounting options (the same options for mounting as the T40). The T30 comes standard with one stainless steel folding side shelf.

AEI also offers a full array of parts and accessories for its PGS line of gas grills including covers, rotisserie kits, side burners, drawer kits, shelf kits, and more!

Prior to purchasing your grills please be sure to check with your local building codes department or fire officials to be sure your installation complies with all code requirements. This is your responsibility and not that of your selling dealer or PGS distributor, or AEI Corporation.

PGS grills can only be installed in islands constructed of non-combustible materials.

Materials, specifications, pricing and warranties subject to change. Please check our website or contact us directly if you have any questions.
