

160 i/165 i/7 Rack Screwdriver set Kraftform Plus Series 100, single-pole phase tester and rack, 7 pieces  
Kraftform Plus – Series 100 VDE

VDE  
TOOL

<b>EAN:</b>	4013288041715	<b>Size:</b>	280x205x55 mm
<b>Part number:</b>	05006148001	<b>Weight:</b>	666 g
<b>Article number:</b>	160 i/165 i/7 Rack	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82054000

- Insulated blades for secure work at 1,000 volts
- Smooth hard zones for high speed turning, soft grip zones for high torque transfer
- Take it easy tool finder: colour coding according to profile and size
- Hexagonal anti-roll feature against rolling away
- Lasertip tips for more secure fit in the screw head

7-piece screwdriver set with individually tested, insulated screwdrivers as per IEC 60900. Individual testing at 10,000 volts so as to ensure safe working at the permitted voltage of 1,000 volts. Kraftform Plus handle for pleasant, ergonomic working that makes blisters and calluses a thing of the past. Hard gripping zones for high working speeds whereas soft zones ensure high torque transfer. Partially Lasertip: the tip literally bites itself into the screw head and prevents any slipping. "Take it easy" Tool Finder: colour coding according to profile and size. The anti-roll feature prevents any bothersome rolling away at the workplace. Including single-pole phase tester and 1 rack for storage.

**Individually tested**

The individual testing at 10,000 volts, in accordance with IEC 60900, ensures safe working with loads up to 1,000 volts.

Our screwdrivers are tested for dielectric strength under a 10,000 volt load to make sure that their most important property, their insulation, has been exhaustively tested. Each individual Wera VDE screwdriver is subjected to this test to guarantee safe working up to 1,000 volts.

**Impact strength test**

Impact strength tested at -40°C, guaranteeing safety even under extreme conditions.

**Lasertip**

A precisely-focused laser creates a sharp-edged surface structure. Wera Lasertip "bites" itself into the screw head and prevents any slips out of the recess. It is available for screwdrivers for slotted, Phillips and Pozidriv screws.

**Reduced contact pressure**

Wera Lasertip reduces the contact pressure required and enhances force transfer - meaning less screwdriving effort is required. Screwdriving becomes safer and easier.

**Kraffform**

The basic idea for the prototype of the Kraffform handle - that the hand should dictate the design - has, right through to today, proved to be correct. In cooperation with the internationally recognised Fraunhofer IAO Institute, Wera developed a screwdriver handle designed to match the shape of the human hand as long ago as the 1960s. After a long development phase, the Wera Kraffform handle was launched to the market in 1968. It has been optimised through the years with new technologies, but has kept its proven shape. After all, the human hand has not changed either.

**Non-roll feature**

All Kraffform screwdrivers have a non-roll feature at the lower end of the handle. The hexagonal design prevents any annoying rolling away of the screwdriver at the workplace.

**"Take it easy" Tool Finder**

Screwdrivers with "Take it easy" tool finder: colour coding according to profile and size stamp.

**160 i/165 i/7 Rack Screwdriver set Kraftform Plus Series 100, single-pole phase tester and rack, 7 pieces**  
**Kraftform Plus – Series 100 VDE**

**Set contents:**

**165 i PZ VDE Insulated screwdriver for Pozidriv screws, PZ 1 x 80 mm**

05006162001	1x	PZ 1 x 80 mm
05006164001	1x	PZ 2 x 100 mm

**160 i VDE Insulated screwdriver for slotted screws, 0.4 x 2.5 x 80 mm**

05006100001 <sup>1)</sup>	1x	0.4 x 2.5 x 80 mm
05006110001 <sup>1)</sup>	1x	0.6 x 3.5 x 100 mm
05006115001	1x	0.8 x 4 x 100 mm
05006120001	1x	1 x 5.5 x 125 mm

1) without Lasertip

**247 Single-pole phase tester, 0.5 x 3 x 70 mm**

05005655001 <sup>1)</sup>	1x	0.5 x 3 x 70 mm
