Illusion

The Illusion combines lightweight design, comfort, and stability. Crafted from ultra-lightweight aircraft-grade aluminium, the Illusion's chassis ensures durability while allowing for easy disassembly into portable parts. The heaviest part weighs less than 10 kg, which is comparable to a bag of shopping!. Other key features include:

Quick & Easy Assembly: Assembling the Illusion takes approximately 30 seconds and with the unique design allows for easy singled handed assembly and disassembly.

Ultra-Lightweight Lithium Battery: Is easily accessible and simple to remove available in either the standard 10Ah size or larger Eundurance 20Ah size.

Dual charging ports: Choose between the battery box charging port or the tiller charging port allowing you to either charge the battery when located on the scooter or 'off-board' at conveniently located charging place.

Advanced Suspension System: The full front and rear suspension ensures a comfortable ride, even on rugged pavements.

Tyre choices: You have the option of either solid puncture proof or soft-roll pneumatic tires, tailoring the scooter to your preferences.

Generous Legroom: Thanks to its unique 'patented' shallow floor plate design, even taller users won't feel cramped.

So whether you're navigating city streets or exploring scenic paths, the Illusion offers a ultra light and comfortable solution for those seeking a car-transportable mobility scooter.
