High Leverage Concreters' Nipper

High lever transmission

- 25% less effort required compared to conventional concreters' nippers of the same size
- Extra-slim form for tying deep mounted steel rods
- To lace concrete reinforcing steel with binding wire from a roll
- Wire is twisted and cut in a single pass
- High-leverage joint, minimising strain, even when thick binding wires are used
- The high damping of the cutting stroke on cutting through the binding wire reduces the strain on tendons and muscles
- Cutting edges additionally hardened; cutting edge hardness approx. 61 HRC

General

Part No.	99 14 300
EAN	4003773028116
Pliers	zinc plated
Weight	505 g
Dimensions	300 x 50 x 25 mm
Standard	DIN ISO 9242
REACH compliant	does not contain SVHC
RoHS compliant	not applicable

Technical details

Cutting capacities hard wire (diameter)	Ø 2.0 mm
Cutting capacities medium hard wire (diameter)	Ø 3.8 mm
Head width (W3)	25.0 mm

Technical changes and errors excepted
