

Engineered for Success

When you specify Honeywell **Commercial Field Devices**, you're choosing more than exceptional products. You're choosing the industry's most comprehensive line of valves, actuators, dampers, sensors, economizers, variable frequency drives

and temperature controls. You're choosing world-class service and support. The broadest distribution network. A brand with a legacy of leadership in HVAC controls. Choose Honeywell for your partner to enable project success from start to finish.

Valves

A broad valve portfolio that provides a turnkey solution with precise control and reduced installed costs.

Actuators

Reliable performance and advanced design enables faster installation and increased control for the most critical building applications.

Economizers, Sensors, & Variable Frequency Drives

Advanced technology that meets stringent building codes while improving the user experience with diagnostic information.

Your Partner for Honeywell Commercial HVAC Components

Control Valves with MVN Actuators

Pressure Independent Flow Control Valves

VRN Threaded and VRW Flanged Valve Families

Maintains flow under varying differential pressures.

Integrated pressure control cartridge combines circuit balancing and control functions in one package, resulting in consistent temperature.

Field serviceable stem and pressure regulating cartridge allow for easy serviceability for reduced life cycle costs.

Control Ball Valves

VBN Threaded and VBF Flanged Valve Families

Characterized insert is integral to the ball: results in longer service life and higher operating differential pressure capabilities.

Parabolic flow insert provides equal percentage flow for better control.

Packless field-replaceable stem for easy service in pipe.

Rotary Valve Actuators

Assembled with or without MVN Actuators

Click-on assembly cuts installation time - no tools needed.

Compact design saves space allowing installation in confined areas.

Identification tags are available; tags shall be indelibly marked with CV, model number, and tag location.

All Control Valves and MVN Actuators have a 5-Year Warranty
