

Engineered for Success

When you specify Honeywell **Commercial Field Devices**, you're choosing more than exceptional products. You're choosing the industry's most comprehensive line of valves, actuators, dampers, sensors, economizers, variable frequency drives

and temperature controls. You're choosing world-class service and support. The broadest distribution network. A brand with a legacy of leadership in HVAC controls. Choose Honeywell for your partner to enable project success from start to finish.

Valves

A broad valve portfolio that provides a turnkey solution with precise control and reduced installed costs.

Actuators

Reliable performance and advanced design enables faster installation and increased control for the most critical building applications.

Economizers, Sensors, & Variable Frequency Drives

Advanced technology that meets stringent building codes while improving the user experience with diagnostic information.

Your Partner for Honeywell Commercial HVAC Components

Variable Frequency Drives

SmartVFD COMPACT

Intuitive User Interface or PC Tool Dashboard – Enables easy commissioning.

Side-by-side and Din Rail mounting – minimizes space requirements and simplifies installation.

Built-In Communications – Modbus.

Optional EMC Filters.

SmartVFD HVAC

Start-Up Wizards – Tell the VFD whether you have a pump or a fan, enter nominal motor info, & you're up and running.

Graphic Interface – Easy-to-use keypad and multi-monitor screen displays nine values at once.

Built-In Communications – BACnet, N2, and Modbus.

DC Choke – For harmonic protection.

SmartVFD Bypass

Four configurations to meet jobs-site requirements – Disconnect only, two contactor bypass, three contactor bypass with disconnect, three contactor bypass with auto-bypass.

Freeze/Fire/Smoke Interlock.

NEMA 1, NEMA 12, and Ventilated NEMA 3R enclosure types.

Custom options available.
