# WHO ARE ALLIED HYGIENE?

We are a highly accredited world class UK manufacturer of wet and dry wipes to major market sectors including Food, Industrial, Healthcare, Retail, HORECA, Dairy and Facilities Management.

Our route to market is via distributors whilst having a close relationship with key sector end users to drive product innovation and development. This ensures a smooth supply chain solution with our distribution partners.

Since forming in 1991 with the vision of producing sanitising wipes for the food industry, we have continuously grown and developed various ranges to meet the stringent demands of distributors and ultimately end users.

With a keen interest in managing our environmental impact we have developed a range of biodegradable substrates and packaging innovations to contribute to our customers sustainable objectives and reduce our environmental impact.

# OUR WET WIPE RANGES

## sanisafe®

The intention of our sanisafe range is to eliminate bacteria and fungi found on a range of food surfaces helping to prevent cross contamination. The chemical blend is mixed with synergistic bactericides, surfactants and available with and without alcohol. This provides an ideal way of sanitising where the use of liquid is impracticable.

Tested to: EN1276, EN1650, EN13697 & EN14476.

## sanisafe3®

This is a quat free disinfectant formula proven to kill both Gram Positive and Negative bacteria, ideal for all surfaces suitable for use in the food sector. Available with and without alcohol.

Tested to EN1276, EN1650, EN13697, EN13727, EN14476.

## sanisafe4®

Pre-impregnated quat based disinfectant wipe designed for effective hard surface disinfecting in medical/healthcare/dental environments

Tested to EN1276, EN1650, EN13704, EN13727, EN14476.

## sanisafe6®

Pre-impregnated quat free disinfectant wipes designed for disinfecting and cleaning food contact surfaces, utensils, production and laboratory equipment within food industry, HORECA and medical/healthcare environments. Ideal also for rapid cleaning in retail environments of shopping trolleys, doors and door handles shelving and temperature probes.

Tested to EN1276, EN13697, EN13727, EN14348, EN14476, EN16615, EN16615.

## sanimed®

MAXIMISE YOUR PERFORMANCE  
MINIMISE YOUR EFFORT

A highly effective range of disinfectant surface wipes with independently approved extensive efficacy data to provide effective infection control against harmful bacteria, viruses, fungi and spores in medical, healthcare and dental market sectors.

Available in a range of packaging and sheet count options

## grime eez<sup>®</sup> multi

Pre-impregnated wipes which quickly and effectively remove adhesive, mastic, oil, grime and grease from hands, tools and surfaces leaving no residue.

## grime eez<sup>®</sup> MAX

Designed to quickly remove dirt and grime from a variety of non-porous surfaces and hands. With the option of smooth and abrasive materials to enhance mechanical cleaning on a range of surface materials.

Tested to EN 1276, EN 1650, EN 13697, EN 13727, EN 14476.

## grime eez<sup>®</sup> Paint

The ultimate portable hand wipe for the removal of paint and similar solvent or petroleum based products. Keeps hands and tools clean in any industrial environment.

## grime eez<sup>®</sup> graffiti

Powerful formulated wet wipes designed to safely remove Graffiti from an array of surfaces.

## bodyfresh<sup>®</sup>

Impregnated wipe for skin cleansing, ideal for use where wash room facilities are not available; leaving skin feeling clean and soft.

## safehands<sup>®</sup>

A pre-impregnated wipe designed to kill various bacteria and fungi, sanitising & disinfecting hands prior to food preparation or service. Intended for single use to eliminate the risk of cross contamination.

Tested to EN 1276, EN 1499, EN 1650, EN 13727.

## biomax<sup>®</sup>

Designed to quickly and effectively disinfect hands, ideal for people who work in or around open water. Tested to EN 12054.

# OUR PACKAGING FORMATS

We offer a variety of packaging formats cater for a wide range of end user requirements.

Our traditional packing options include; 1L , 2L rigid tubs and 2.5L to 11L bucket formats. We also offer reduced packaging options which include; Refill bag (available for both tubs and buckets) and our patented innovative wipes dispense system Quick Release Dispenser (QRD).

These packaging options reduce your plastic use by up to 75% More recently a state of the art high speed flowwrap line, enables us to offer high capacity competitive 100 and 200 sheet flowwrap.

## OUR DRY WIPE RANGES

We offer a range of Colour Coded Non-Woven cloths for Healthcare, Horeca and Food manufacturing sectors in a variety of formats designed to reduce the risk of cross-contamination between different surfaces.

For industry we offer a range of Low Lint, Solvent Resistant wipes which are designed to improve cleaning speed and efficiency without leaving debris and are ideal for Cleaning, Polishing and Wiping machinery, Tools or Surfaces.

## OUR PAPER PRODUCTS

Our comprehensive product portfolio caters for a range of sectors including: public wash rooms, industrial workplaces, hotels, schools, restaurants and healthcare environments.

All products meet the CHSA Soft Tissue Standard, which means that we guarantee the product in the box meets the specification on the label.

All products are from FSC certified suppliers which are managed to strict environmental, social and economic standards.

Our range include Toilet Tissue, Hand Towels, Hygiene and Wiper Rolls in a variety of specifications and gram weights. We also have various products to fit the many system type dispensers in the market.

## DISPENSERS

Working closely with both Jofel and San Jamar, we are able to offer our customers an extensive range of dispensers suitable for all requirements. These products are available both as bespoke or in our manufacturers logo.

Our direct relationship with these manufacturers allows us to offer competitive pricing and compatible dispense options for our comprehensive ranges of paper consumables.

We are always concious of the environment; our range now includes the timeless recycled plastic dispensers.

## SUSTAINABILITY

We understand how important becoming more sustainable is to our customers.

This is why we have been working hard to create 100% biodegradable and recyclable products.

We are able to offer both 100% viscose or 100% cellulose wet wipes. Coupled with our sustainable packaging options such as refill or QRD bags, these wipes make for our most sustainable products yet.

# PRIVATE LABEL & & OWN SOLUTION PRODUCTS

We understand that each of our customers have a variety of needs, this is why we offer unique and tailored solutions from medical wipes to wipes suitable for use in the food industry. We are proud to offer bespoke services that allow for own solution chemical along with your own label to create bespoke products catered directly for your customers needs.

At Allied, we pride ourselves on our Quality assurance, adhering to the highest industry standards (ISO 13485). We have strict quality control measures to further ensure standards are met. This along with the variety of packaging formats we can offer and quick turn around allow us to meet and exceed our customers expectations.
