

Plan Table

Designed By Edward Barber & Jay Osgerby, 2022

The Plan Tables combines a minimalist design with functional details, making it well-suited for both home and professional environments. The sturdy steel tube base is available in either a powder-coated or brushed finish, while the tabletop comes in a range of materials, including solid wood for a natural and inviting look. The solid wood version features a rounded edge profile, whereas other surfaces have a straight edge with matching edge banding. For a sleek and organized workspace, integrated cable management is available, allowing cables to be discreetly routed through the legs. The cable management cover is available in black metal or core leather, crafted from surplus material from the production of The Spanish Chair.

MODEL
6631 - Table 200 x 100 cm

MATERIALS
Table with base in tubular steel, brushed or powder coated. Tabletop in Fenix NTM laminate, Forbo linoleum, Really textile-plate and oak veneer with straight edge with matching edge band or solid wood with a rounded edge profile. Mounted with plastic glides. Cable management set and cut out available. Cables can be led through the leg and the plastic glide included. Cover for cut out in black powder coated metal or natural saddle leather made from leftovers from production of The Spanish Chair.
