

High Efficiency, All Purpose Circulator Pump

# GRUNDFOS MAGNA1

The MAGNA1 is a high efficiency, high-performance circulator designed for pumping liquids in commercial heating and cooling applications where simple control and communication is desired. The MAGNA1 is built with 65+ years of hydronic experience and is an ideal retrofit solution for fixed speed pumps.

## KEY FEATURES AND BENEFITS

- Intelligent control mode options ensure the MAGNA1 is optimized to meet application demands:
  - Three defined proportional pressure curve settings
  - Three defined constant pressure curve settings
  - Three defined constant curve/constant speed settings
- Electronically commutated motor uses less than 50% of the energy of a standard motor
- 360 [mNm] starting torque clears pump of system debris and sediment
- Magnetite resistant design ensures longer pump lifespan
- Full range of circulators in both cast-iron and stainless steel
- Integrated pump, motor and control saves time and expense with easy installation
- Easy to use, intuitive controls with LED indicator
- Wet rotor design allows for maintenance free and quiet operation
- Innovative Grundfos Eye provides visual indication of pump status: pump running, warning or alarm
- No external motor protection required
  - Insulating shells supplied with cast iron pumps

## APPLICATIONS

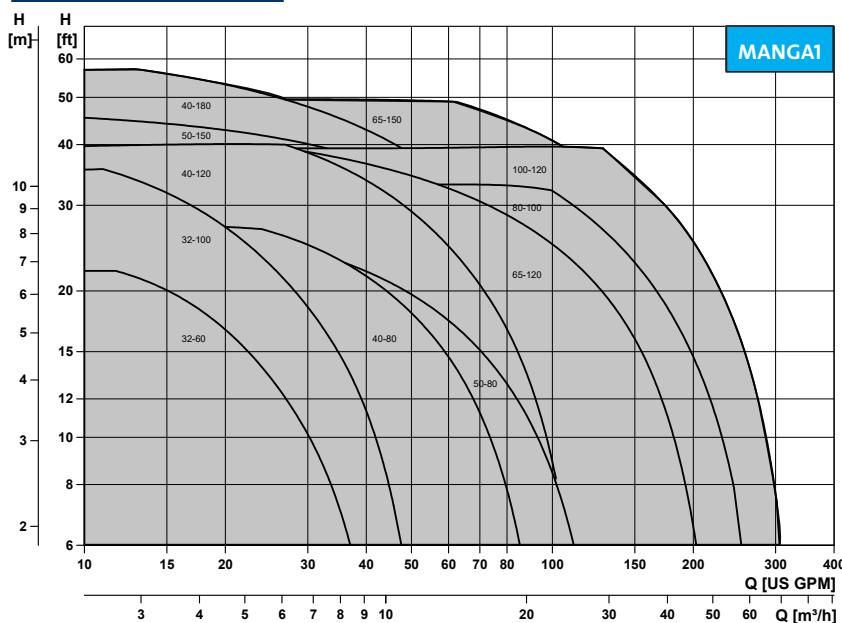

- Heating & cooling
- Ground source heat pump systems
- Hydronic venting
- Chilled water
- Snow melt
- Hot water recirculation

## TECHNICAL DATA

## MAGNA1 (ALL MODELS)

FLOW, Q:	max. 313 gpm
HEAD, H:	max. 59 ft
MOTOR:	11 x 115V, 115-230V & 208-230V, 50/60 Hz
WORKING PRESSURE:	max. 175 psi
LIQUID TEMPERATURE:	14°F to 230°F
APPROVALS:	ANSI/UL Standard 778 CAN/CSA Standard C22.2 No. 108
