Product description:

Urban Console with Timeless Clarity. This refined and versatile console steel shelf unit is designed for urban living, offering multiple functions — as a console in the hallway, a narrow display shelf, or stylish storage for everyday items and shoes. The angled brackets at the back provide stability while preserving the open, airy design. Each shelf features a gently rounded front that emphasises the craftsmanship of the individual elements and lends the raw steel profiles a smooth, tactile finish. Thanks to its generous depth, this functional unit provides an elegant surface to display your favourite items, keep essentials within easy reach, and organise shoes in a refined way. Crafted from brushed stainless steel.

Designer's thoughts:

'The design of the steel shelf unit began with the bent corners, which were intended both to frame the shelves, like a closed case, and act as the structure of the unit. The bent edges of the individual components soften the visual appearance of the hard steel and make it possible to minimize the thickness of the elements.' - Jonas Herman, Herman Studio
