Product description:

Refined Steel Mirror for Any Room. This refined steel mirror is perfect for creating a pleasant atmosphere in the bedroom, bathroom, office, hallway or living room. The angled brackets at the back provide stability while preserving the open, airy design. Each edge has a gently rounded front that emphasises the craftsmanship of the individual elements and lends the raw steel profiles a smooth, tactile finish. The mirror can be hung either horizontal or vertical, depending on your space. Crafted from brushed stainless steel.

Designer's thoughts:

'The design of the steel shelf unit began with the bent corners, which were intended both to frame the shelves, like a closed case, and act as the structure of the unit. The bent edges of the individual components soften the visual appearance of the hard steel and make it possible to minimize the thickness of the elements.' - Jonas Herman, Herman Studio
