## Product description:

Mirror Meets Function in Steel Form. This refined steel mirror offers a practical storage solution for bedroom, bathrooms, offices, hallways and living rooms. The angled brackets at the back provide stability while preserving the open, airy design. The gently rounded front of each edge emphasises the craftsmanship of the individual elements and lends the raw steel profiles a smooth, tactile finish. The slim, concealed storage space behind the mirror allows you to keep essential items close at hand while maintaining an orderly, minimalist environment. Crafted from brushed stainless steel.

## Designer's thoughts:

'The design of the steel shelf unit began with the bent corners, which were intended both to frame the shelves, like a closed case, and act as the structure of the unit. The bent edges of the individual components soften the visual appearance of the hard steel and make it possible to minimize the thickness of the elements.' - Jonas Herman, Herman Studio
