

# DEVILLE COLLECTION

## HIGHLIGHTS

- An outdoor collection of chairs and tilt-top tables in varying sizes and colours
- A contemporary take on the classic bistro set
- Designed for comfort, flexibility, and mobility, featuring lightweight chairs and tilt-top tables for effortless relocation and storage
- Crafted from lightweight, rust-resistant aluminium with at least 60% post-consumer recycled aluminium
- The collection features a weatherproof outdoor powder coating
- The chairs and armchairs are stackable up to 5 pcs.
- Suitable for a wide variety of outdoor environments

# DEVILLE COLLECTION

## DESIGN BY JULIEN RENAULT

A contemporary take on the classic bistro set, Julien Renault's Deville Collection reinterprets a familiar typology for today's outdoor life. Defined by generous proportions and softly curved frames, the chairs balance durability with an open, welcoming character – an invitation to sit, linger, and enjoy time outside. Crafted from at least 60% post-consumer recycled aluminium, the rust-resistant collection is built to last while remaining easy to move and rearrange. The lightweight design extends across stackable chairs, armchairs, and compact tilt-top tables, available in a variety of colours, shapes, and sizes – making Deville both practical and quietly nostalgic.

French designer Julien Renault blends rational methods with artistic freedom in his approach to design. Based in Brussels, he draws inspiration from everyday life, transforming the ordinary into something beautiful. His work for numerous international brands reflects the deep connection between objects and their environments. For HAY, Julien has designed the Pastis Table and Chair series, Compass Lamp Collection, and Layout Armchair.

## SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
