

diy PUFFY CHARMS ♥

WARNING:
 CHOKING HAZARD—Small Parts.
 Not for children under 3 yrs.

Instruction Manual

CT1957 v05-0519

HELLO!

This kit, like every craft kit we make, is special to us. We've gone to great lengths to try and make it special for you too, from quality materials to easy-to-follow instructions to cool finished products you create. And our hope is that you'll have as much fun making it as we did designing and developing it. (Fingers crossed!)

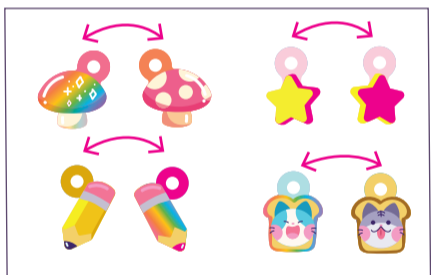

Show us! We'd love to see how your project turned out, so please share your photos and comments with other crafting fans via social with **#wherfunrules**.

Happy Crafting!
 -The Ann Williams Team

What you'll need: •hard work surface •scissors

Basic Instructions:

1. The stickers are positioned on the sheet so that the matching stickers are next to each other.

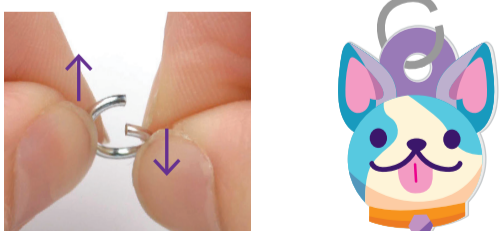

2. Remove 1 sticker from the sheet and stick to the back of the matching sticker. Try to line them up as best as you can.

3. If any of the sticker holes are filled, use a paper clip or pencil to gently push it out.

4. Open a metal ring by holding it on each side and twisting the ends away from each other. Slide the charm onto the metal ring.

Necklace:

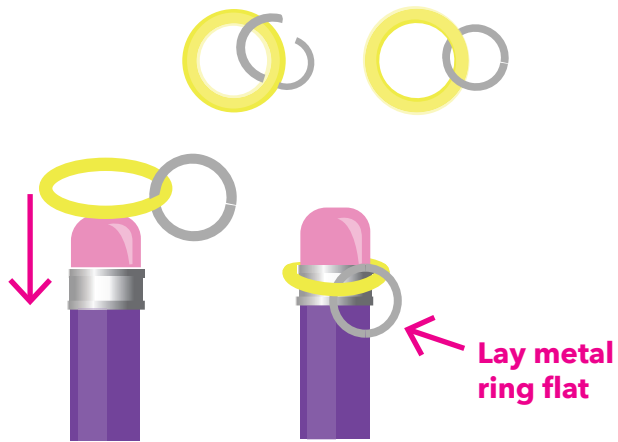

5. Place metal ring through a link on the necklace and twist it closed. Repeat until you fill the necklace to your liking.

Pencil toppers:

6. Twist open a metal ring as show in step 4. Place it through the yellow o-ring, then twist the metal ring closed.

7. Stretch the o-ring onto the top of your own pencil. Lay the metal ring flat against the pencil.

8. Follow basic instructions 1-4 to make charms. Place the metal ring on the charm through the metal ring on the pencil and twist it closed.

9. Have fun with your pencil toppers: add as many charms as you would like!

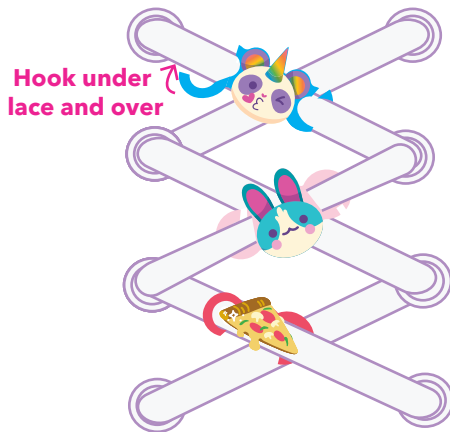

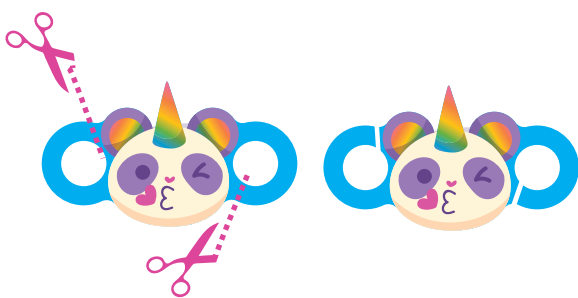

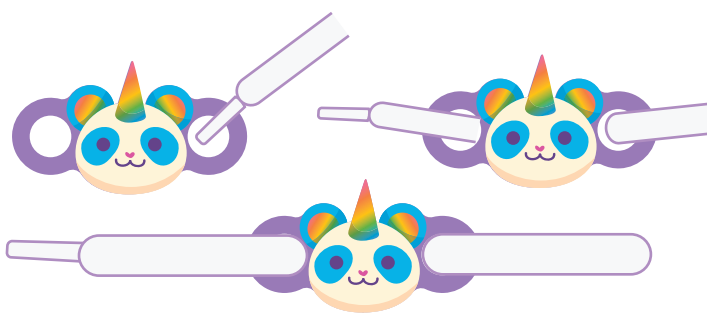

Shoe charms:

10. Follow basic instructions 1-3 to make puffy sticker shoe charms.

11. Option A. Unlace your shoe and thread one lace down one hole and out and through the other hole.

Option B. For an easy-on, easy-off option, Cut the circle on opposite ends close to the charm *with an ADULT'S help*. Then hook the charms onto the laces.

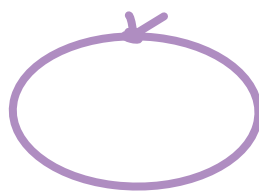

Bracelets:

12. Cut four 9 inch pieces of elastic thread.

13. Ask an adult or friend to tie the elastic to fit your wrist. Trim ends. Make sure you don't tie too tight or too loose.

14. Follow steps 1-4 to make charms.

15. Place metal ring onto the elastic and twist it closed. Repeat until you fill the bracelet to your liking.

You can add charms to other things too:

- Zipper pulls on clothing
- Pencil Cases
- Backpacks
