Formula Tank:

- Open Formula Tank Cap and fill with Formula to the Formula dot
- Close Formula Tank Cap until it clicks and is securely closed

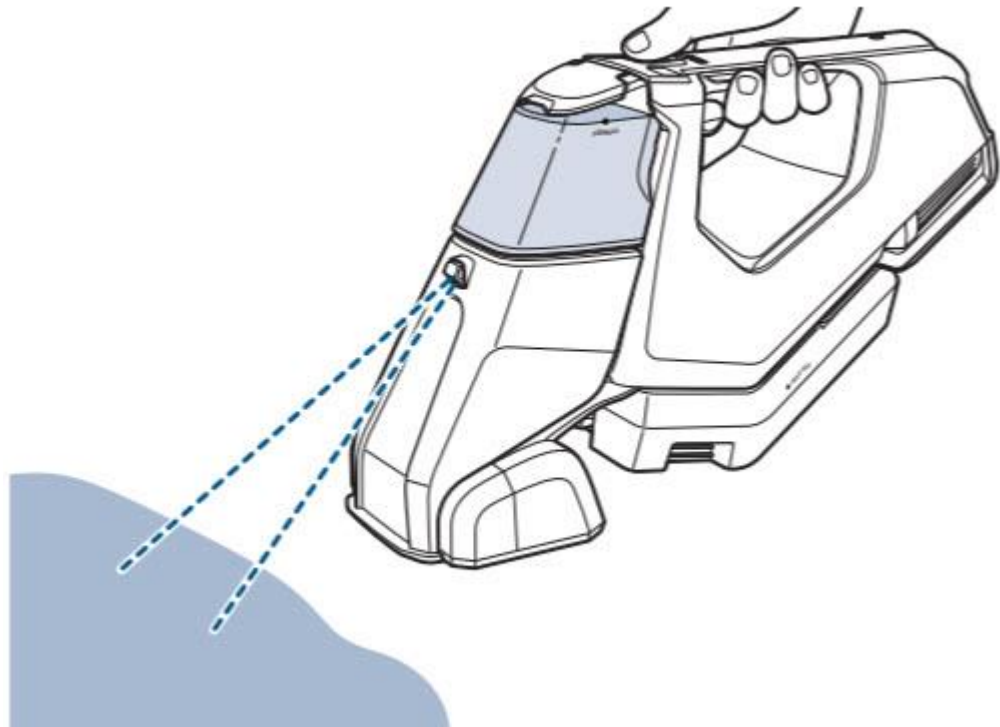

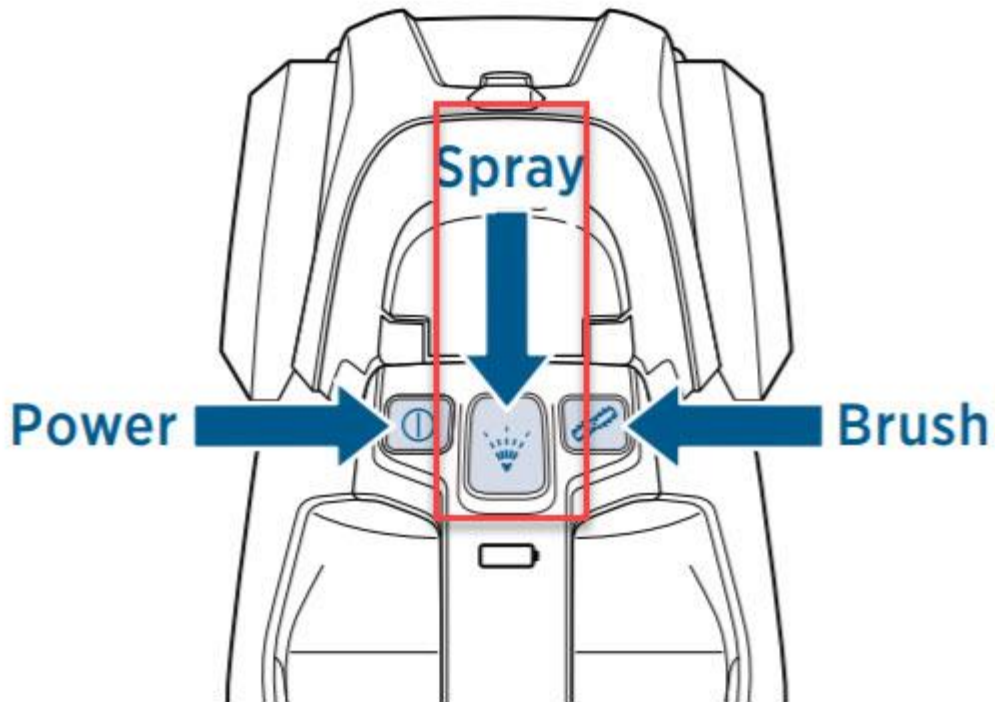

Cleaning:

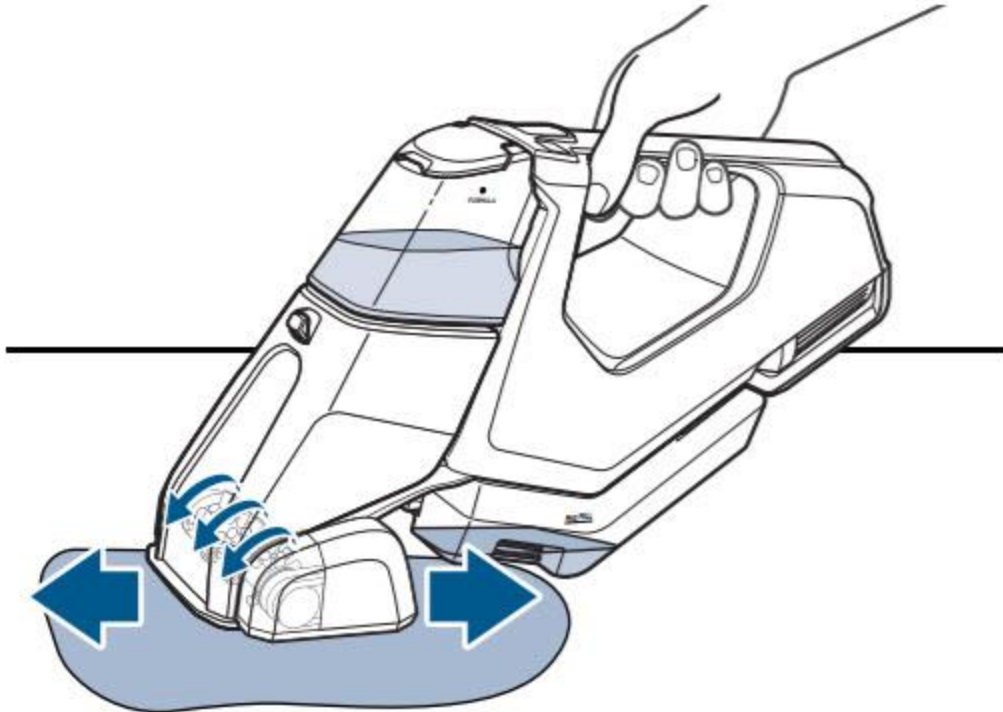

- Turn Machine on
 - Brush Roll will automatically start spinning, to turn Brush Roll off hit the Brush Roll button

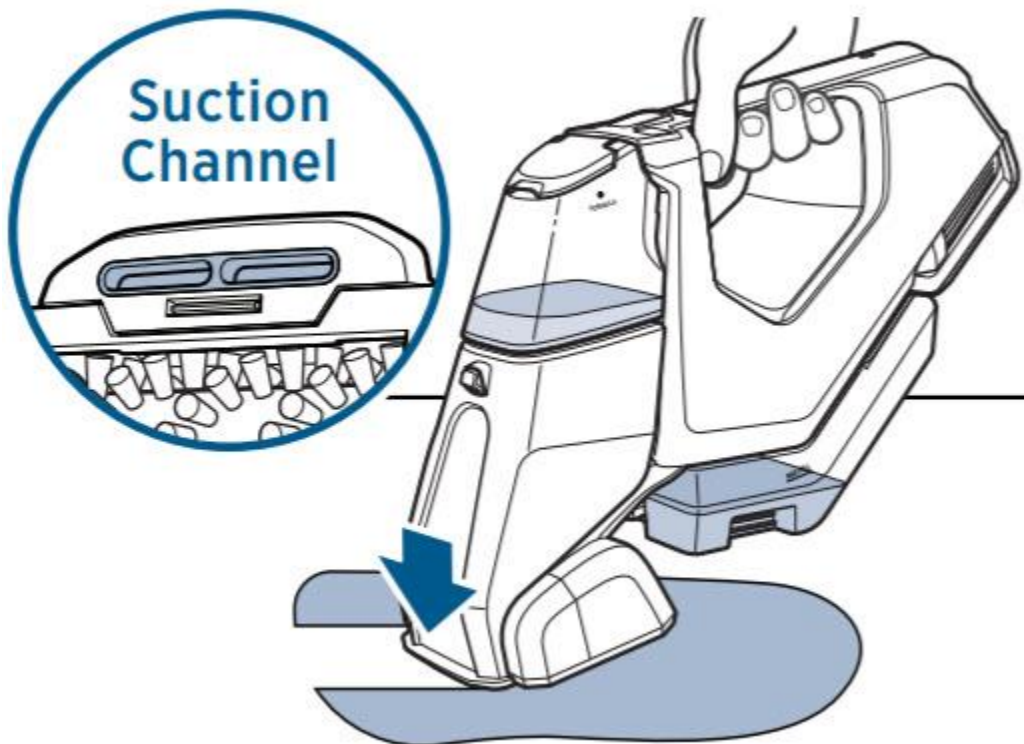

-
- Spray Formula in desired area using the Spray Button

- Scrub the area with the rotating PowerBrush
 - Keep the nose of the machine flat on the surface

- For best suction, tilt the machine slightly forward and pull backwards while firmly pressing the suction channel to the cleaning area

- Make sure to empty the Dirty Tank when it reaches the MAX FULL line
 - For instructions on Emptying the Dirty Water Tank > Go to **After Cleaning Care**
