# When Herbert met Betty

The classic reinvented

Somewhere over

# er the rainp

Our classic  
Herbert basin  
reimagined  
once more.

Meet Betty, our  
latest all-rounder.

All the colours of the rainbow, and then some.

Available on our standard range, we are excited to introduce our new Conscious colour range exclusive to Nood+. It's time to make room for colour in your home.

# Curves in all the right places. Betty, swoop!

Inspired by 1950's design, Nood takes a step back, to take a step forward. Featuring a stepped vertical wall and gorgeous curved band, the Betty basin is the perfect designer piece for your bathroom space.

### TOP VIEW

### MATERIAL

UHP Concrete

### FINISH

Matte / Low Sheen.  
Sealed with Nood Co  
Deep Seal Protection.  
Sealer is low VOC, food  
grade safe, UV Tolerant.

### WEIGHT

12.6kg (28lbs)

### DIMENSIONS

355mmL x 410mmW  
x 355mmH  
(14Lin x 16.14Win x 14Hin)

### BOWL CAPACITY

8.9L (2.4gal)

### TAP HOLE

Only available as  
pictured

### OVERFLOW AVAILABLE

N/A

### WASTE RQD

Suits a standard 32mm  
(1.25in) waste. Waste not  
supplied by Nood Co.

### WARRANTY

24 months

### WASTE HOLE SIZE

46mm (1.8in)

### WALL THICKNESS

20mm (0.8in)

### OPTIONS

Surface Mount /  
Wall Hung

### WALL HANG RQD

Mount before tiling  
- to timber frame or  
masonry wall.

### FRONT VIEW

### BACK VIEW

All dimensions are estimate. We suggest waiting until receiving Nood  
basins before cutting holes in cabinetry items. Colours of concrete  
may vary slightly.

# Vanity layouts

## Looking after your Nood basin is super simple, but everyone says that.

### SO, WHAT CAN I REALISTICALLY EXPECT FROM MY NOOD BASIN EXPERIENCE?

Our concrete is sealed with a very effective, deep penetrating sealing system to allow a real-world function. With that said, Nood isn't ceramic. It's beautiful concrete and so we have some helpful tips to keep your basin even more beautiful for years to come.

### CLEANING

Nood present the most advanced concrete composition on the market, we still encourage you to clean your spills as you go. Simply wash your spills away with soapy water and a soft, microfibre cloth. Please avoid scourers and strong cleaning chemicals.

Please immediately clean strong staining products such as coffee scrubs, acid-based products. Leaving these stains for over 6 hours although unlikely, may mark or etch the concrete.

For more information please check out our maintenance video at [noodco.com.au](https://noodco.com.au).

### SCRATCHING / CHIPS

Hey, it happens from time to time.

As your basin ages, it's likely that some minor scratching may have taken place. While this aligns with the natural beauty of concrete it may not always align with the client perception. Nood have colour repair kits ready to send out. They are simple to apply and will allow you to touch up any small imperfections on your basin.

For more information about repairs please email us at [info@noodco.com.au](mailto:info@noodco.com.au).

### WATER DROPS IN YOUR BASIN

Water drops are free to dry out in your basin. We've tested it, we've adjusted our concrete to it, and we've made sure this won't be an issue for you. 95% of water drops will dry into your concrete seamlessly. The other 5% will leave a white ring on your basin. In this rare case, simply wipe down with clean water and a microfibre cloth. Nice and easy.

### WHAT'S THIS WAXING BUSINESS? SOUNDS LIKE WORK.

Not at all. Each Nood piece is carefully sealed and pre-waxed prior to delivery.

The basins are then packaged and sent out with spare maintenance wax and instructions so you can self-apply as necessary. The wax assists with abrasion and stain resistance. Simply apply more as you see it wear off. It's simple.

To view the wax application video please visit us at [noodco.com.au](https://noodco.com.au).

### HOW OFTEN DO I WAX?

Nood have tested it. The average frequency in which you'd need to reapply your wax, given you use your basin for 5 minutes and twice a day, is once every 3 months.

Nood have spare wax for when you require more, and we send out instructions on how to apply the wax with each basin. They are also available on our website.

To view the wax application video please visit us at [noodco.com.au](https://noodco.com.au).

## Packaging and Transport

---

Nood take the most care when it comes to packaging and transport. Each package is carefully wrapped in different grades of foam and boxed firmly with thick cardboard. Each package has flex points to allow for safe international and domestic travel.

Nood offer tracking with each package and a close access of communication. After all, this is your experience that we are excited to be a part of.

## Nood Co Concrete Composition

---

**Real beauty is on the inside.**

The Nood concrete composition is a complex one. We won't bore you with too many details, but the Nood concrete is made of 8 highly refined components. Each component assists in a specific way, be it improving the concrete strength, the water ratio, mix integrity, water tolerance, colouring, durability and more.

We feel Colonel Sanders pain.

Everything from Nood Co has been a ground up build. From product design to concrete composition, sealing to packaging, every step of the process was dreamt up, tested and approved by Nood Co.

When you buy Nood Co you are purchasing something unique. You are buying the process, the love we willingly commit, so you can experience something with soul.

Aw...
