

53-9130

Medium weight cut level A9 latex palm coated glove

The 53-9130 glove delivers level A9 cut resistance combined with a flexible, medium-weight construction designed for durability and all day comfort in demanding environments. Engineered with advanced RhinoYarn® technology, it provides exceptional mechanical protection while maintaining a smooth, form fitting feel for precise handling.

Featuring a 13 gauge seamless liner and crinkle latex palm coating, the glove offers excellent grip in both dry and wet conditions. A reinforced, hard wearing design makes it ideal for heavy duty applications, while the knit wrist ensures a secure, comfortable fit throughout extended wear. Built for performance and reliability, it's a cost effective solution for industries requiring high cut protection without compromising dexterity.

Product Specifications
