

Applications

Suspensions

Pediatrics

Geriatrics

Product Highlights

Flavor Plus is a unique flavor-free, aqueous based suspending vehicle used to simplify the process of compounding oral non-soluble suspensions. Flavor Plus is buffered to an acidic pH, providing a uniform, consistent and stable oral suspension vehicle.

- Viscous, white, opaque liquid
- Hydrophilic and hydrophobic activities
- Sugar free

Ingredients

Purified water, Microcrystalline cellulose, Sodium carboxymethylcellulose, Xanthan gum, Carrageenan, Citric acid, Sodium phosphate, Potassium sorbate, Methylparaben

Specifications

Flavor Plus is a flavor-free, white liquid

- pH: 4.0 – 4.5
- Specific Gravity: 1.002 – 1.022 g/mL
- Viscosity: 1300 - 6700 cps
