

Intrinsically SAFE™

MSHD3AA

European Region

Approved by global safety agencies, the MSHD3AA is ideal for work in harsh conditions. The light is water resistant, dustproof and survives a 4 meter drop. It is built to take tough conditions on the job and provides a dependable hands-free lighting solution. Four lighting modes are controlled by two easy to operate push button switches. The light pivots to direct the beam where you need it; and the comfortable, adjustable head band stays where you put it, whether on your head or on a hard hat.
