WGI™ CERTIFICATE NUMBER

WGI9634160153

2025-03-24

ONLINE VERIFICATION

www.wgi-global.com

**DESCRIPTION**

ONE (1) FACETED GEMSTONE. SPECIES: NATURAL CORUNDUM. VARIETY: GREEN (TEAL) SAPPHIRE.

**Center Stone**  
 Shape And Cutting Style **Oval Mixed Cut**  
 Carat Weight **3.13 carat**  
 Color Grade **Deep Bluish Green**  
 Clarity Grade **Lightly Included**  
 Measurements **8.98 X 7.36 X 5.69 mm**

**Comments**

No indication of heat treatment.  
 Colour uniformity: Good.  
 Transparency: Transparent.  
 Origin opinion: Tanzania.

WGI™ Gemological Analysis is based on strict standards and internationally accepted grading techniques which the laboratories are committed to. Using professional equipment and terminology, this report represents a gemological opinion and does not serve in any case a guarantee or warranty. HPHT (high pressure high temperature) is a treatment to enhance the diamond's color. Clarity enhanced refers to laser drilling and / or fracture filling techniques to improve clarity of a diamond and its appearance. Weights and measurements are approximate. The mounting can limit the ability to see the characteristics and signs of treatment. The valuation refers to a recommended retail price (RRP).
