

ASCO 212–SERIES SOLENOID VALVE KITS

ASCO 212–Series Solenoid Valves are high quality valves specifically designed for water purification systems. Ideal for use in mid-size reverse osmosis systems, **ASCO 212–Series Solenoid Valves** are easy to install and service, and are available in 1/2", 3/4" and 1" FNPT sizes.

FEATURES

- NSF 61: Drinking Water System Components
- Modular Design with FasN™ Technology, the World's First Universal Connection System
- Up to 150 psi and 180 °F
- Low Power Coils 6.3 WAC
- Normally Closed Operation
- Increased Reliability: Up to 1 Million Cycles
- Kit Available with Din Connector and 6 Ft. Cord

SPECIFICATIONS

Item Description	Material	Port Size FNPT	Voltage	Operation	MOPD–Water (psi / bar)	Temperature (°F / °C)	Wattage
Valve, Solenoid, 2-way	Composite	1/2	24V / 120V / 220V	Normally Closed	150 / 10.3	180 / 82	6.3 W
Valve, Solenoid, 2-way	Composite	3/4	24V / 120V / 220V	Normally Closed	150 / 10.3	180 / 82	6.3 W
Valve, Solenoid, 2-way	Composite	1	24V / 120V / 220V	Normally Closed	150 / 10.3	180 / 82	6.3 W
