

ACC-SERIES ACTIVATED CARBON FILTER CARTRIDGES

AXEON® ACC – Series Activated Carbon Filter Cartridges utilize our 2.5" or 4.5" diameter configurations that fit most standard size filter housings. **AXEON ACC – Series Activated Carbon Filter Cartridges** feature a coconut shell base activated carbon media that has been specifically developed to reduce chlorine, unwanted tastes, odors and certain volatile organic compounds (VOCs).

AXEON ACC-Series Activated Carbon Filter Cartridges provide a solution for a variety of applications and act as excellent preand post-treatment for reverse osmosis systems or as a standalone point of filtration.

- High Capacity Flow Rates
- Customizable to Fit Any Application

MATERIALS OF CONSTRUCTION

- Cartridge Body: High-density Polyethylene (HDPE)
- End Caps: Polypropylene
- Brackets on End Caps: Polypropylene
- Filter Pad on End Cap: Polypropylene
- Gasket: Thermoplastic Elastomer (TPE)
- **Sediment Filter:** Polypropylene (5 Micron Nominal Rating)

SPECIFICATIONS

Model	Description	Diameter (in / mm)	Length (in / mm)	Volume (cubic ft.)	Chlorine Capacity (gal)
ACC-25-10	CARTRIDGE, CARBON, ACTIVATED, 2.5" X 10", ACC-25-10, AXEON	2.50 / 63.50	9.75 / 247.6	0.03	3,300
ACC-25-20	CARTRIDGE, CARBON, ACTIVATED, 2.5" X 20", ACC-25-20, AXEON	2.50 / 63.50	20 / 508	0.06	6,600
ACC-45-10	CARTRIDGE, CARBON, ACTIVATED, 4.5" X 10", ACC-45-10, AXEON	4.5 / 114	9.75 / 247.6	0.09	12,800
ACC-45-20	CARTRIDGE, CARBON, ACTIVATED, 4.5" X 20", ACC-45-20, AXEON	4.5 / 114	20 / 508	0.18	25,600
