- Avocado & Toast Mould/Soap Dish
- Pineapple & Fruit Bowl Mould/Soap Dish
- Icecream & Cone Mould/Soap Dish
- Shaping Tool
- Rolling Pin
- Rolling Mat
- Gloves

Instructions

Soapy Sculpt

Who knew soap could be so fun?!

Form coloured clays into any shape you can imagine, or use the moulds to create adorable soft soaps!

Run your creation under a tap to wash your hands or create a bubbly bath!

To Begin

Set up your workstation - place the rolling mat and tools on a work surface and put on the gloves provided.

To remove the clay soap from the pot, run the palette side of the shaping tool around the edge of the soap and prise out.

Your chosen clay may need warming up a bit, so squeeze, roll and knead it in your hands. When the clay is ready, it will be less crumbly, softer and easier to mould.

Filling the Mould

To create eye-catching faces, roll out a thin (about 1/2 cm) piece of clay in a different colour than the rest of your clay, then cut into tiny pieces with the palette side of the tool. Place the pieces in the eyes and mouth parts of the mould so when it comes together, they'll stand out!

Fill the mould by pushing the clay soaps into only one of the sides - make sure the clays are overflowing so it fills up the other side too.

Between colours make sure to wipe off any clay which has stuck to your tools or gloves.

Close the mould all the way shut - you may need to press quite hard!

If the clay is sticking to the mould, pop in the freezer for 15 minutes (or up to overnight) to harden.

Opening the Mould

Open the mould by gently pulling apart both sides. If there is excess clay, using the palette side of the tool, remove these bits by gently cutting and pulling away from your soap.

Remove your soap from the mould by pulling carefully from the bottom.

No need to wait for the soap to set, your squashy soap is ready to use!

To Use

Squash in your hands (or break off a piece to extend the lifespan) and run under warm water, lather up in your hands and enjoy the smells and colourful bubbles from your custom-made clay soap!

Crumble a little and hold under running water for a bubble bath!

Display your soapy sculpt on top of the closed soap dish mould!

Please note: The clay will begin to harden and dry out when left out, don't worry, this won't affect the performance of the soap!

Share your favourite designs!

We would love to see your creations! Share your amazing soapy sculptures with us on social media by mentioning or tagging [@playmonsteractivitiesuk](https://www.instagram.com/playmonsteractivitiesuk)
