

ARCH® CLASSIC FLEECE

WEIGHTLESS WARMTH

The ARCH® Classic series of fleece fabrics sets the ultimate standard for lightweight warmth and breathability.

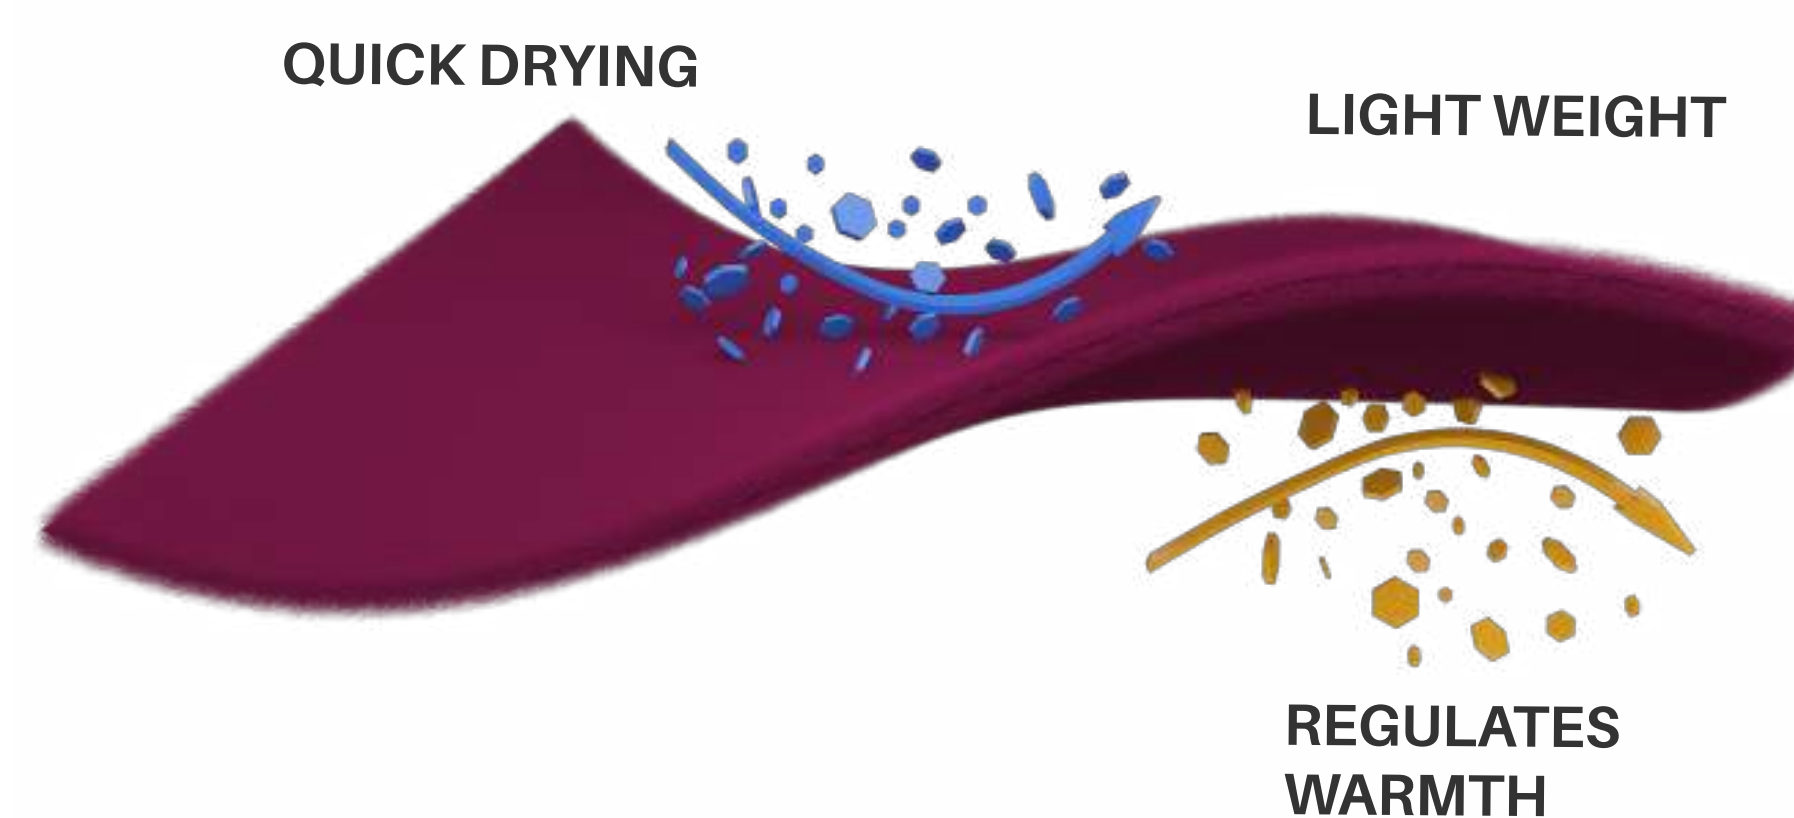

This series of fabrics offers unparalleled quality and durability. It is available in ultra-light, light, middle, and heavy-weight constructions to provide a full range of insulation levels. ARCH® Classic series not only provides outstanding weightless warmth but also fast drying capabilities which make for a truly versatile option for any occasion.

TECHNOLOGY

ARCH® Classic Series of fleece fabrics are made with 100% polyester velour construction which is highly breathable and dries quickly to minimize heat loss, thus regulating core warmth. After repeated use and laundering. ARCH® Classic products maintain their insulation properties and smooth appearance. These fabrics are available in a range of weights to provide the right insulation level for most outdoor activities. ARCH® Classic Series includes over 100 styles of fabrics available in different colors, textures, and finishes. We offer many styles with a water repellent surface that sheds any precipitation.

RECOMMENDATIONS

ARCH® Classic Fleece fabrics are ideal for use in jackets, blankets, and accessories. Our unique finishing techniques ensure long-lasting, high-quality fabrics for a wide range of weather.

BENEFITS

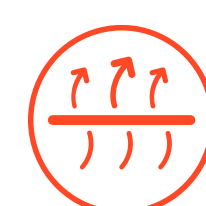

REDUCED FABRIC WEIGHT AND INCREASED WARMTH

Keep warmth to the body

QUICK DRYING

Keep Dry to the body

HIGHLY BREATHABLE

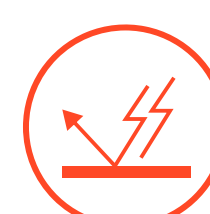

Allows moisture vapor pass through & Keep comfortable

AVAILABLE TECHNOLOGY

DURABLE WATER REPELLENCY

Provides long-lasting & Comfortable water resistant

ANTI-STATIC

Avoids electrostatic charges

RECYCLED WITH MAGNIF-ECO®

Made of recycled fiber
