2021 GIFT GUIDE: BEST GIFTS FOR TEACHERS YOU ADORE

Believe me when I say nothing about teaching this year is easy. While students and teachers are glad to be back together and learning in person, this year been relentless.

Before vaccines were approved for all ages, there was a constant worry about kids contracting COVID. We're well into the second quarter and the efforts to teach kids how do in-person school are ongoing. Add on top the required paperwork, professional development to renew our teaching certificates, etc. and teachers are physically, mentally, and emotionally drained. [*I know from experience!*](#)
