Because of this, particular care should be taken in the first few weeks after delivery before cleaning, see below.Care: Solid wood may expand and shrink with differences in temperature and humidity so take care not to place your furniture directly next to anywhere with excessive changes in temperature such as radiators and windows.Cleaning: To clean on a regular basis wipe the surface with a damp cloth before removing any moisture with a dry cloth. Wipe off anything that will stain straight away, eg red wine, balsamic vinegar, oil, tea, coffee, alcohol, etc. In the event of severe spillages and stains the surface can be lightly re-sanded and re-oiled - please talk to us or a professional furniture restorer before doing so.
