# DT 1770 PRO MKII

## Premium Studio Headphone

Order # 1000310 (black)

### DESCRIPTION

Due to its closed design with a high ambient noise attenuation and an enormous maximum sound pressure level, the DT 1770 PRO MKII is ideal for musicians, sound engineers and producers for professional studio and monitoring applications.

The efficient Tesla.45 drivers ensure a perfect sound with an excellent resolution, spatiality and high output level. Perfect for mixing, recording and editing in the studio. Users in loud environments, such as sound engineers when monitoring PA systems or live musicians, benefit from their extremely high efficiency.

The DT 1770 PRO MKII features a modern design with a simple elegance of all components such as the end pieces, yokes, ear cups and headband. All components can be replaced and ensure a long life of the headphones.

The single-sided mini XLR cable is detachable and can be locked.

The rugged spring steel headband gives the headphones a secure fit and the mechanical reliability required for everyday use.

Soft headband and ear pads contribute to a high level of long-term comfort. Headband and ear pads can be replaced if necessary.

The connection cable is fitted with a gold-plated mini stereo jack plug (3.5 mm) with a 1/4" adapter (6.35 mm) and can be connected to all standard headphone outputs.

The delivery includes a hard case for safe transport or storage.
