User Guide

DIMMER

Thoughtful lighting, responsibly designed in London.

Thank you for making the switch to Tala.

Discover the full Tala family at tala.co.uk

IMPORTANT

Please read the following instructions before commencing work, and keep for future reference.

Please take extreme care when carrying out the instructions detailed below.

Not suitable for non-dimmable LEDs.

WARNING

You must switch off electricity supply at the mains during installation and maintenance. We strongly recommend that you withdraw the fuse or switch off the circuit breaker while work is in progress. If in any doubt, please contact a qualified electrician.

COMPATIBLE LOADS

| | | |
|--------------|--|---------------|
| Dimmable LED | | Load: 3-100W |
| Incandescent | | Load: 10-150W |

*per module

This symbol indicates that electrical and electronic equipment (WEEE) should not be mixed with general household waste. For recovery and recycling, please take this product to a designated collection point where it will be accepted free of charge. Many retailers offer this in-store. Disposing of this product correctly will help save valuable resources and prevent any potential negative effects on human health and the environment.

WIRING DIAGRAM

ONE-WAY OPERATION

TWO-WAY OPERATION

MIN BRIGHTNESS SETTING
