

Godox_G3_v1.1 注意事项

1. 问：用 USB 数据线连接设备，软件不显示“连接设备成功”

答：在使用 USB-C 口连接设备时需要一个 hub 连接器作转接再用 USB 数据线连接，而使用 USB-A 口时可以直接用 USB 数据线连接；

2. 问：产品升级后产品无法开机

答：请检查是否使用了对应的固件进行升级，对于 X3 和复古闪光灯系列 (Lux Master) 以及之后推出的产品需要使用 Godox_G3 的 v1.1 版本软件进行升级；

Godox_G3_v1.1 Instructions

Q1: When connecting the device with a USB data cable, the software does not show "Device connected successfully".

A: When using a USB-C port to connect the device, a hub connector is needed to connect the USB data cable. When using a USB-A port, the USB data cable can be directly connected.

Q2: After upgrading, the product cannot be powered on.

A: Please check if the corresponding firmware was used for the upgrade. For the X3 and the retro flash series (Lux Master) and products launched thereafter, the Godox_G3 v1.1 software version must be used for the upgrade.
