

6210-C

SOFT SERVE FREEZER

Single Flavor, Countertop, Digital Control

Most **Compact & Versatile** single flavor countertop model for soft serve ice cream and frozen yogurt

Fast Freeze Down

Patented high efficiency heat exchanger allows fast freeze down with low energy consumption

Digital Control and Display

Digital control provides access to system settings and displays critical system information

Auto Programming

Allows automatic switching of operation modes based on preset schedules

Standby

Maintains product temperature in both mix hopper and freezing cylinder below 4.4°C (40°F) overnight

Ideal for any business with limited counter space to add ice cream, frozen yogurt, gelato or sorbet. Flexible with digital control and display. Great fit for restaurants, bars, kitchens, convenience stores and delis.

Defrost for Cleaning

Increases efficiency during cleaning by heating frozen product in cylinder

Quick Freeze

Turn on freeze immediately to freeze down to serving viscosity when quick service is required after long idle period

Self-closing Valve with Speed Control

Automatically prevents product overflow after dispense; Provides flexibility in dispense rate control

Safety Protections

- Low temperature and motor overload shutoffs to protect in the event of cylinder freeze up
- High pressure switch to prevent compressor overheating
