

Arame Wall Light Installation Instructions

* WIRING MUST BE INSTALLED BY A QUALIFIED ELECTRICIAN *

- Connect the lamp holder to the electricity supply by unscrewing the threaded section of the bulb holder and connect the wires via the screw terminals. Screw into the wall using the slotted screws and wall plugs (if required) supplied (1).
- Unscrew the brass shade ring and slot the lampshade over the thread of the lamp holder. Screw the shade ring back on to tightly secure the lampshade to the lamp holder.
- Screw in the gold capped light bulb to complete the installation.
