

<b>EAN:</b>	4013288119278	<b>Size:</b>	185x112x33 mm
<b>Part number:</b>	05104654001	<b>Weight:</b>	225 g
<b>Article number:</b>	844/7	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82075060

- Ideal for mobile repair and assembly work
- Rapidaptor holder for rapid bit change
- 1/4" drive suitable for power screwdrivers
- Rapidaptor universal holder, non-magnetic, and tapping drill bits with 1/4" drive
- In practical and robust plastic box

7-piece tapping drill bit set in a stable plastic box for the cutting of metric threads. The hexagonal bit shaft ensures very good power transfer. The finely-tuned material elasticity provides for great durability. Perfect chip removal and a low tilt risk. The Rapidaptor ensures rapid bit change without any extra tools. 1/4" hexagon, suitable for holders as per DIN ISO 1173-D 6.3.

**Tap cutting bits**

Tap cutting bits Application: Cutting threads<ul><li>1/4" drive suitable for holders as per DIN 3126-D 6.3 (ISO 1173)</li><li>Hexagon shaft for very high torque transfer</li><li>Finely adjusted material elasticity for long service life</li><li>Excellent centring properties</li><li>Straightforward cutting</li><li>Perfect chip removal</li><li>Low jamming risk</li><li>Precise return control</li><li>High corrosion protection</li></ul>

**Rapidaptor holder**

Lightning-fast bit change without any extra tools. One-handed operation. With fast-rotating sleeve for easy wielding of the screwdriver.

**Rapid-in and self-lock**

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

**Rapid-out**

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

**Chuck-all**

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

**Single-hand function**

Every function of the Rapidaptor quick-release chuck, such as inserting or releasing bits, can be carried out with one hand. This is faster, more economical and more ergonomic. There are no unnecessary manoeuvres.

**Rapid-spin**

The free-turning sleeve allows screw steadying at the start of the screwdriving process. This makes it easier to apply the tool to the screw and prevents slipping. It can also be used as a short extension for 1/4" applications e.g. in combination with the Wera Zyklop Ratchets.
