Packaging must be retained since it contains important information.

WARNING!

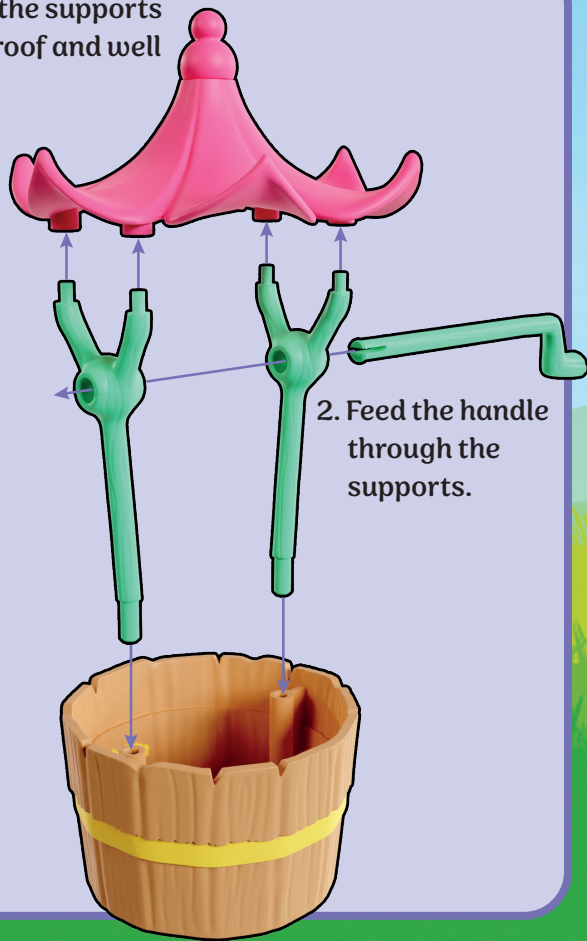

Choking Hazard. Small Parts.

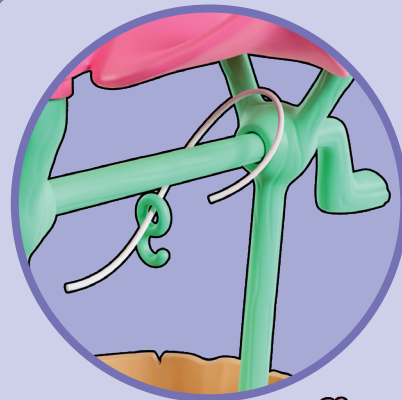

Instructions

4+

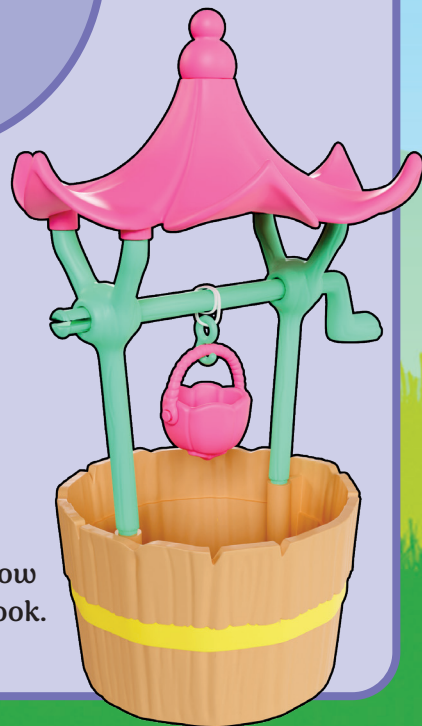

1. Attach the supports to the roof and well barrel.

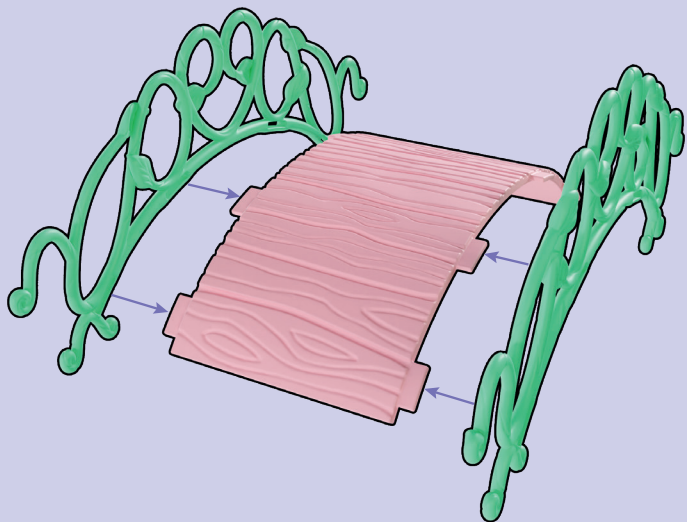

2. Feed the handle through the supports.

3. Tie the string to the bucket hook, then tie through the hole in the well handle.

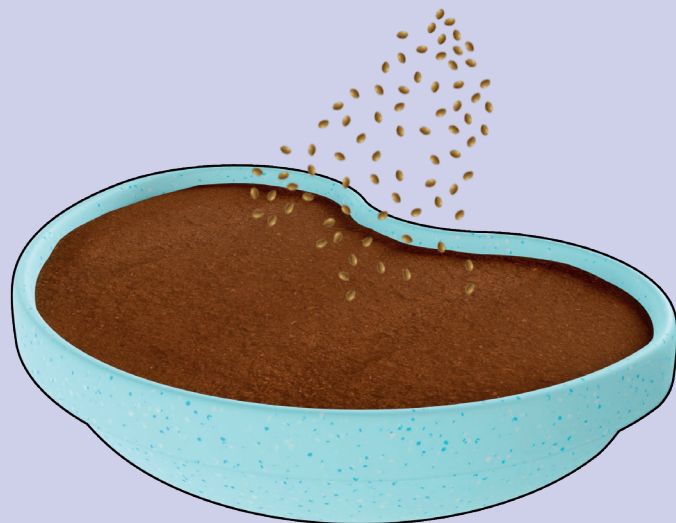

The bucket can now be hung on the hook.

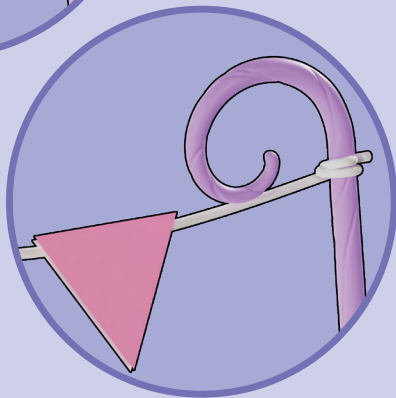

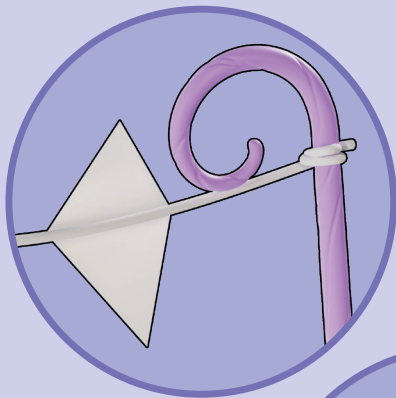

4. Attach the railings to the base of the bridge on both sides.

5. Carefully fill the fairy planter nearly to the top with sieved garden soil or multipurpose compost, available from garden centres.

6. Firm the soil down to make a smooth and stable surface. Sprinkle the seeds evenly over the soil, then water... but don't add too much!

7. Assemble your bunting. Peel the bunting from the backing sheet and place it unfolded on the string. Then fold it over.

Place your well in one of the planters.
Attach your planters together with the bridge.
Decorate your garden with your flowers.

Now your garden is ready to grow
with Kai and her unicorn friend.

Caring for your Garden

- Place your garden in plenty of sunlight.
- Check your garden regularly and add more water to the soil if it begins to dry out.
