## Sealed Performance Batteries

Sealed Performance Batteries (SPB) is a distributor of energy and storage products and an Australian owned company with over 25 years' experience in the battery industry. Located in a modern and ISO Certified warehouse south of Brisbane and with branches in Sydney and Melbourne, we provide customers across Australia with the world's best portable energy storage products from our global partners.

While SPB's foundation was built on the automotive industry, today we provide solutions for a far more diverse range of clients and industries. Our energy storage products are currently sought by government departments, mining companies, SME's, property developers, UPS businesses, battery specialists, recreational markets, fire and security and many more.

SPB believe that to remain at the forefront of our industry we must maintain a customer-driven approach that is supported by a versatile mix of staff that are experienced and willing to innovate proactively. We want to be a business that is easy to deal with so that we can build long-term relationships with both customers and suppliers alike to deliver value to all.

## The Energizer Difference

Energizer is globally known and one of Australia's most trusted and recognisable battery brands. Their origins began with the trusty AA, providing quality products that consumers have come to know and rely on daily. Now, the Energizer brand has turned its focus to another industry that equally requires on the same level of quality and comfort when they need a battery most, the Automotive industry.

Your customers can be confident in knowing that Energizer automotive batteries are made through a tried and tested method that depends on getting the user to their next destination. This also ensures that the high-quality service you offer your customers will continue through to the products you provide and install in the vehicles your customers trust you with. Energizer automotive batteries are for every car, every time.

## Warranty Information

Energizer batteries are warranted throughout Australia against faulty workmanship and materials. Depending on the battery and application the amount of time covered varies (refer to the table below for details). If a Energizer Battery is defective (other than for the warranty exclusions specified below) during that period, we will replace or repair it at our cost. To make a claim, please return the part to the place of purchase. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality. The benefits under this warranty are in addition to other rights and remedies you may have at law.

This voluntary warranty is given by SPB of 1 Ant Road, Yatala, Queensland, Australia 1300 001 772

### Energizer Automotive Battery Series Maintenance Free

CAR / SUV / 4WD - PRIVATE USE	36 MONTHS
START/STOP AGM/EFB	AGM 36/ EFB 24 MONTHS
TRUCKS / COMMERCIAL / INDUSTRIAL	12 MONTHS
TAXI	6 MONTHS
MARINE STARTING	24 MONTHS
DEEP CYCLE	12 MONTHS

Warranty commences from date of purchase.

### WARRANTY CONDITIONS

This warranty does not cover:

Normal wear and tear.

Labour for removal and replacement of the unit unless prior written approval has been obtained from Sealed Performance Batteries.

Transportation costs to and from the place of purchase or stockist.

Parts which have been subjected to deliberate abuse. Conditions resulting from abnormal wear, negligence, alterations or accidents. Incorrect fitment.

Parts used in an incorrect application or parts that are not used for their intended purpose.

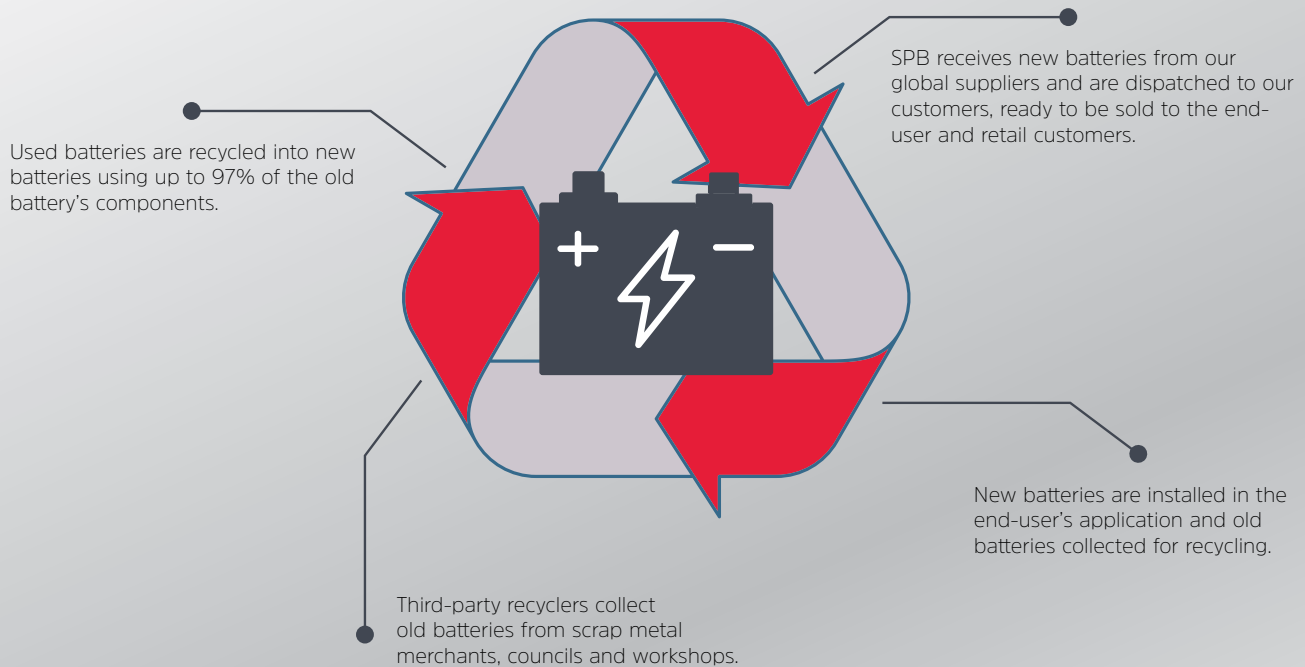

### HOW DO I MAKE A WARRANTY CLAIM?

In the first instance contact the place of purchase. Should you require further assistance please contact SPB on 1300 001 772. Proof of purchase is required.

## Battery Recycling

### SPB supports responsible, sustainable battery recycling and environmental protection.

At SPB we are proud to support and be part of an industry that has the highest recycling rate of any other industry. With more than 97% of all battery lead recycled, compared to 55% of aluminium soft drink and beer cans, 45% of newspapers, 26% of glass bottles and 26% of tyres, lead-acid batteries top the list of the most highly recycled consumer products.

The lead-acid battery gains its environmental edge from its closed-loop cycle. The typical new lead-acid battery contains 60 to 80 percent recycled lead and plastic. The recycling cycle goes on indefinitely, that means the lead and plastic in the lead-acid batteries that you use have been - and will continue to be - recycled many, many times. This makes lead-acid battery disposal hugely successful from both environmental and cost perspectives.

## Energizer SEALED MAINTENANCE FREE FEATURES AND BENEFITS

- Magic Eye Indicator – for ease of checking the state of charge.
- Heat Sealed Technology – designed to maximize strength and rigidity to prevent electrolyte leakage.
- Cover – the special structure gives the battery excellent performance of non-leakage, ventilation and anti-explosion etc.
- Polypropylene Container – light weight and exceptionally strong material with exclusive case design to protect the battery from vibration and impact.
- COS Plate Welding – for higher cranking performance and more resistance to vibration.
- Plates – with new lead calcium designs, gassing, water losses and self-discharge rates are minimized and the life cycle is improved.
- Low resistance PE Envelope Separators – prevents internal short circuits between the positive and negative plates, allows higher cranking performance and enables the battery to better withstand high temperature environments.

All Energizer batteries feature lead calcium expanded grids (lead calcium technology) for improved resistance to corrosion, gassing, water usage, self-discharge and thermal runaway, all of which limit battery life in conventional lead acid batteries. This high performance range of Heavy Duty Batteries are built to withstand heavy loads and vibration. They are purposely built with thicker plates for longer life.

# Energizer Battery Technology

## Energizer AGM

- Advanced Absorbent Glass MAtt (AGM) technology for even acid distribution, prevention stratification
- Top-class performance, extremely high cyclic stability and high vibration resistance
- The perfect solution for start-stop vehicles equipped with regenerative braking
- Longer lasting performance compared to conventional batteries
- Suited for urban traffic with start-stop functionality to discharge and charge repeatedly
- Non-spillable and versatile for mounting

## Energizer EFB

- Enhanced Flooded Battery (EFB) with superior reliability and performance compared to standard flooded batteries
- Suitable for conventional start-stop vehicles with basic high electrical demands
- The perfect solution for start-stop vehicles without regenerative braking
- Maintenance-free, no refill needed

## Energizer Calcium + Calcium

- Start, Light, Ignite (SLI) standard flooded lead acid batteries for long-lasting reliability
- The perfect solution for conventional vehicles
- Maintenance-free, no refill needed

## AGM Power From Within

# INVICTA

LITHIUM BATTERIES

Safe. Smart. Robust. Efficient.

Now Available With Bluetooth Functionality & IEC Certification\*

Robust internal design for extreme conditions

50% lighter compared to Sealed Lead Acid batteries

Integrated intelligent Battery Management System

Recharge 8 times faster

Significantly longer lasting runtime and overall life

\*Selected models only

# INVICTA | HYBRID STARTER

## Unbeatable Lithium Starting Technology

- Starting & Deep-Cycle Battery
- Market Leading Warranty
- Suitable For Under-Bonnet
- Charge From Alternator
- Up To 1400CCA
- Jump Start Remotely From App
- High Charge/Discharge Capabilities
- Can Be Used For Winching

Free Bluetooth Monitoring App

See The Full Range

# **SUPER PS SPORT<sup>®</sup>**

## **When True Performance Is Needed!**

PS Super Sport Series batteries offer a complete line of batteries to meet all of your motor sport needs. They are manufactured with the highest quality parts and are competitively priced in a rapidly changing market. The PS Super Sport Series batteries are built with grit and tough terrains in mind. They are quality batteries designed to withstand the conditions that all-terrain vehicles have to deal with.

Built with confidence by their ISO:9001 and ISO:14001 certified factory, the broad range of sizes and battery types makes the PS Super Sport Series battery products one of the best choices available on the market today.

## Solar Energy Power Station

### Install In As Little As One Hour ●

A simple yet feature rich, plug-and-play Energy Storage System that qualified technicians can install to new or existing systems in as little as one hour

Pre-wired to internal switch board, inverter, and gateway while being enclosed in a sleek aluminium cabinet for ease of mobility. Simply add supplied batteries

### Save Money With Free Energy ●

Use free battery power to save money on soaring energy bills

Flexibility to add up to 8kW of solar and 14.4kWh of battery capacity to grow and maximise potential ROI

Customisable settings to take advantage of peak and off-peak times

### Have Confidence With An Australian Made Product Made For Australians ●

Australian made and owned product with a market leading 10 year warranty

Designed with Australian technicians in mind with easy to understand installation resources and guides

Australian based support team with extensive knowledge in the solar industry

Complies to Australian Standards and CEC requirements

### When The Grid Goes Down Keep The Lights On ●

Seamless and automated UPS functionality ensures back-up power is instantly available when the grid goes down

Store up to 14.4kWh of battery energy to use on demand

### Monitor All Your Projects From One Spot ●

Sealed Performance Batteries
