

TrichoConcept™ Vehicles

A line of multifunctional compounding vehicles for personalised alopecia treatment.

Application by area

Scalp	Eyebrows & Eyelashes	Beard	Hair Length
TrichoSol™, TrichoFoam™, TrichoOil™, TrichoWash™, TrichoCond™	TrichoCream™	TrichoSol™, TrichoFoam™, TrichoCream™	TrichoWash™, TrichoCond™

TrichoSol™

TrichoSol™ is a highly spreadable hydrophilic solution containing mineral salts of vegetable origin. TrichoSol™ formulation is gentle to the scalp, not causing the typical dehydration of hydroalcoholic solutions.

- Soft formula, gentle to the scalp
- Non-irritating vehicle
- Does not cause hair or scalp dryness
- Proven stability with water-soluble and liposoluble APIs and DCIs such as minoxidil, latanoprost and finasteride

TrichoSol™ can be applied directly to the affected areas, following the prescribed frequency of application according to the API and the designated treatment. A list of formulations with TrichoSol™ can be found in the TrichoConcept™ Formulary available via the Fagron Academy.

TrichoFoam™

TrichoFoam™ is a foaming vehicle, formulated with gentle, non-irritating and sensory-pleasant ingredients. TrichoFoam™ is drip-free, allowing for a localised application of formulations through a soft foam with minimal oiliness.

- Free from propellants
- Produces a soft foam with minimal oiliness
- Drip-free formulation
- Allows for localised application
- Proven stability with water-soluble and liposoluble APIs and DCIs such as Minoxidil

TrichoFoam™ can be applied directly to the affected areas, following the prescribed frequency of application according to the API and the designated treatment, being especially suitable for beard areas, as it is a drip-free vehicle. A list of formulations with TrichoFoam™ can be found in the TrichoConcept™ Formulary available via the Fagron Academy.

TrichoWash™

TrichoWash™ is a shampoo developed with non-irritating ingredients, which cleans the hair and scalp without destroying natural fatty acids, promoting long-lasting hair hydration and softness. TrichoWash™ delivers multiple benefits that favour the delivery of different APIs through the scalp, in addition to great antioxidant activity.

- Protects against visible signs of aging hair
- Replaces amino acids and proteins, favouring fibre repair
- Detoxifies, hydrates and purifies the scalp
- Suitable for all hair types

TrichoWash™ can be applied on wet hair, as a common shampoo. Gently massage the scalp for two minutes and rinse with water afterwards. Follow the prescribed frequency of application according to the API and the designated treatment. A list of formulations with TrichoWash™ can be found in the TrichoConcept™ Formulary available via the Fagron Academy.

TrichoCond™

TrichoCond™ is a moisturising conditioner with high hydration power to be specially used during hair treatment regimens. TrichoCond™ balances sebum production on the scalp, keeping the structure aligned and firm, and provides a source of essential peptides to maintain the hair cuticle. TrichoCond™ regulates the isoelectric point of the hair, preventing cuticle breakage and cortex exposure. The adjusted pH of this vehicle also promotes the final cohesion of the hair cuticles.

- Reconstructs the cuticle
- Protects against visible signs of aging
- Replaces amino acids and proteins, favouring fibre repair
- Promotes cohesion, strengthening and hydration of the cuticle
- Non-greasy conditioner, suitable for all hair types

TrichoCond™ can be applied on wet hair, following the application of TrichoWash™. Apply along the hair length, leave it in for one to two minutes, and rinse with water afterwards. Follow the prescribed frequency of application according to the API and the designated treatment. A list of formulations with TrichoCond™ can be found in the TrichoConcept™ Formulary available via the Fagron Academy.

TrichoOil™

TrichoOil™ is a 100% natural lipid vehicle that solubilises liposoluble APIs and brings them to the BSS hair system through the lipid layer. TrichoOil™ contains essential fatty acids that promote restoration and hydration of the scalp and shaft.

- Seals and strengthens the cuticle
- Replaces fatty acids in the hair fibre
- Restores and hydrates the scalp
- Ideal for the application of oil vitamins

TrichoOil™ can be applied on dry hair before washing. Spread the product from the hair roots to the tip, and let the product act for ten minutes. Wash the hair normally with TrichoWash™ and TrichoCond™. Follow the prescribed frequency of application according to the API and the designated treatment. A list of formulations with TrichoOil™ can be found in the TrichoConcept™ Formulary available via the Fagron Academy.

TrichoCream™

TrichoCream™ is a natural hydrophilic gel cream based on olive oil and shea butter, with unique antioxidant and emollient properties. TrichoCream™ is a non-greasy topical vehicle with adequate viscosity for safe local application in small areas, such as eyebrows and eyelids.

- Formulated with natural emulsifiers containing high concentrations of triglycerides of linoleic and oleic acids
- Contains tocopherol, providing an antioxidant effect for API protection
- Specially developed for application in eyelashes and eyebrows
- Non-irritant to the eye area

TrichoCream™ can be applied directly to the affected areas, following the prescribed frequency of application according to the API and the designated treatment, being especially suitable for eyebrows and eyelids. A list of formulations with TrichoCream™ can be found in the TrichoConcept™ Formulary available via the Fagron Academy.
