## SDS – Safety Data Sheet

Revision: 01

Issue date:  
Apr/2022

Page 1 of 8

In accordance with NBR 14725 and GHS<sup>8th</sup> Edition

Section 1 – Product and Company Identification	
Product name	Trichocond 1Kg Conditioner Base - Fagron USA
Product code	PLCA01589
Indications for use/ Restrictions of use	Conditioner Base.
Company	Wnf Industry and Commerce Ltda
	Rua Dr. Mário Pinto Serva,64 - Casa Verde, São Paulo-SP. Phone: (11) 3857-7790 / e-mail: qualidade@wnf.com.br www.wnf.com.br

Section2 – Hazards identification		
GHS Classification	Flammable Liquids	Classification
	Acute Toxicity - Oral	Not classified
	Acute toxicity - dermal	Not classified
	Acute Toxicity - Inhalation	Not classified
	Skin corrosion/irritation	Not classified
	Serious eye damage/eye irritation	Not classified
	Respiratory sensitization	Not classified
	Skin Sensitization	Not classified
	Germ cell mutagenicity	Not classified
	Carcinogenicity	Not classified
	Reproductive toxicity	Not classified
	Specific target organ toxicity-Single exposure	Not classified
	Specific target organ toxicity-Repeated exposure	Not classified
	Aspiration hazard	Not classified
	Hazardous to the aquatic environment - Chronic	Not classified
	Hazardous to the aquatic environment - Acute	Not classified
Pictograms	Not required	
Word of warning	Not required	
Danger Phrase(s)	Not required

	<b>SDS – Safety Data Sheet</b>	Revision: 01
		Issue date: Apr/2022
		Page 2 of 8

In accordance with NBR 14725 and GHS<sup>th</sup> Edition

Precautionary Statement(s): Prevention	Not required
Precautionary Statement(s): Emergency Response	Not required
Cautionary Statement(s): Storage	Not required
Caution Phrase(s): Disposition	Not required
Other hazards that do not result in classification	There is no known another hazards wich do not result in classification.

Section 3 – Composition/Information on ingredients		
Product type	Mixture	
Ingredients or impurities that contribute to the hazard		
Inci name	CAS	Concentration range (%)
Disodium EDTA	18154-32-0	0,1 – 10
Rosmarinus Officinalis Leaf Oil	84604-14-8 / 8000-25-7	Not available
Melaleuca Alternifolia Leaf Oil	85085-48-9 / 8022-72-8 / 68647-73-4	Not available
Lavandula Angustifolia Oil	8000-28-0	Not available
Parfum	-	Not available

Section 4 – First Aid Measures	
Inhalation	Remove the victim to fresh air. Clear airway as much as possible. In case of difficulty or inability to breathe, contact emergency personnel.
Skin contact	The product is not expected to cause adverse reactions in contact with the skin. If irritation occurs, discontinue use. If irritation persists, consult a physician.
Eye contact	Rinse thoroughly with water for several minutes. If contact lenses are worn, remove them if easy. Continue rinsing. If eye irritation persists: consult a physician.
Intake	The product is not expected to cause adverse reactions if swallowed. In case of discomfort, seek medical advice.

## SDS – Safety Data Sheet

Revision: 01

Issue date:  
Apr/2022

Page 3 of 8

In accordance with NBR 14725 and GHS<sup>8th</sup> Edition

Acute or delayed important symptoms/ effects	No major acute or delayed symptoms and effects are known.
Protective equipment and precautions for the first aid provider	No special equipment is required.
Indication of immediate medical treatment	There are no known adverse health effects from this product. Symptomatic treatment.

### Section 5 - Firefighting Measures

Appropriate extinguishing media	Non-flammable product.
Non-recommended Extinguishing Media	Not applicable.
Protection of the firefighting team	No special equipment is required.
Specific hazards of the substance	No specific hazards are known from this product.

### Section 6 - Control measures for spills or leaks

Personal precautions, protective equipment and emergency procedures	Contain the leak and mark the spot.
Environmental precautions	Prevent runoff of the material into waterways or sewage systems.
Methods and materials for containment and cleaning up	Collect the product and place it in suitable containers for later disposal. For final disposal, proceed according to Section 13 of the SDS. After collection for disposal or recovery, wash area with soap and water.

### Section 7 - Handling and Storage

#### Appropriate measures for handling

WNF - World's Natural Fragrances  
Rua Dr. Mario Pinto Serva, 65 • Casa Verde • São Paulo - SP • +55 11 3857-7790 • CNPJ

	<h1>SDS – Safety Data Sheet</h1>	Revision: 01
		Issue date: Apr/2022
		Page 4 of 8

In accordance with NBR 14725 and GHS8<sup>th</sup> Edition

Precautions for safe handling	Handle in accordance with good manufacturing practices. Do not eat, drink or smoke in work areas.
Hygiene measures	Maintain proper personal and environmental hygiene.
<b>Storage conditions, including incompatibilities</b>	
Fire and explosion prevention	Product not classified as flammable or explosive under normal storage and handling conditions.
Appropriate conditions	Keep at room temperature between 15 and 30°C. Do not store under refrigeration. Do not freeze. Keep in a dry, cool and protected from sunlight.
Appropriate Packaging	HDPE – High density polyethylene.
Not recommended	Avoid contact with oxidizing agents and strong acids and bases.

Section 8 - Exposure Control and Personal Protection	
Control Parameters	
Specific control parameters	Product not subject to exposure control, according to NBR 15.
Occupational Exposure Limits	Product not subject to exposure control, according to NBR 15.
Biological indicators	Product not subject to exposure control, according to NBR 15.
Appropriate engineering measures	Product not subject to exposure control, according to NBR 15.
Personal protection measures	
Eye/face protection	Wear safety goggles.
Skin protection	No special protective equipment/clothing is required.
Respiratory protection	No special protective equipment/clothing is required.

Section 9 – Physical and chemical properties	
Parameter	Specification
Aspect	Cream
Color	White
Odor	Characteristic
Boiling point	-
Melting Point	-
Flammability	-

## SDS – Safety Data Sheet

Revision: 01

Issue date:  
Apr/2022

Page 5 of 8

In accordance with NBR 14725 and GHS<sup>th</sup> Edition

Flash Point	-
Auto-ignition temperature	-
Decomposition temperature	-
pH	4.00 – 4.50
Viscosity	-
Solubility	-
Partition coefficient: n-octanol/water	-
Vapor pressure	-
Relative vapor density	-
Relative density (20°C)	-
Refractive index (20°C)	-

### Section 10 – Stability and reactivity

Stability and reactivity	Product stable under normal temperature and storage conditions.
Possibility of hazardous reactions	No dangerous reactions are known.
Conditions to Avoid	Avoid exposure of the product to sunlight.
Incompatible materials or substances	There are no known incompatibilities of this product.
Hazardous decomposition products	No dangerous decomposition products are known.

### Section 11 – Toxicological information

Acute Toxicity - Oral	Product not classified as toxic.
Acute toxicity - dermal	Product not classified as toxic.
Acute Toxicity - Inhalation	Product not classified as toxic.
Skin corrosion/irritation	Product not classified as toxic.
Serious eye damage/eye irritation	May cause eye irritation.

	<b>SDS – Safety Data Sheet</b>	Revision: 01
		Issue date: Apr/2022
		Page 6 of 8

In accordance with NBR 14725 and GHS<sup>th</sup> Edition

Respiratory sensitization	There are no data on respiratory sensitization caused by this product.
Skin Sensitization	There are no data on skin sensitization caused by this product.
Germ cell mutagenicity	There are no data on germ cell mutagenicity caused by this product.
Carcinogenicity	There are no data on carcinogenicity caused by this product.
Reproductive toxicity	There are no data on reproductive toxicity caused by this product.
Specific target organ toxicity-Single exposure	There are no data on specific target organ toxicity caused by this product on single exposure.
Specific target organ toxicity-Repeated exposure	There are no data on specific target organ toxicity caused by this product on repeated exposure.
Aspiration hazard	There is no data on aspiration hazards caused by this product.

Section 12 - Ecological Information	
Eco-toxicity	Product not classified as hazardous to the environment.
Persistence/degradability	Not available.
Bioaccumulative potential	Not available.
Mobility on the ground	Not available.
Other adverse effects	There are no known adverse effects of this product.

Section 13 - Final Disposal Considerations	
Appropriate measures for handling and disposal of	
Product	This material must be deposited in accordance with federal, state, or local procedures under conservation and reclamation resources.
Product residue	It should be deposited according to federal, state, or local procedures under conservation and reclamation resources.
Used package	Dispose in an appropriate and authorized place. Do not reuse empty containers.
PPE required for waste treatment and disposal	The use of PPE as mentioned in section 8 of this MSDS is recommended.

Section 14 - Transportation Information	
Terrestrial	
UN Number	Product not classified as hazardous for transport.
Proper Shipping Name	Not applicable.
Main risk class and subclass	Not applicable.
Risk number	Not applicable.
Packaging group	Not applicable.
Environmental hazards	Not applicable.
Bulk Transportation	Not applicable.
Waterway	
UN Number	Product not classified as hazardous for transport.
Proper Shipping Name	Not applicable.
Main risk class and subclass	Not applicable.
Risk number	Not applicable.
Packaging group	Not applicable.
Environmental hazards	Not applicable.
Bulk Transportation	Not applicable.
Air	
UN Number	Product not classified as hazardous for transport.
Proper Shipping Name	Not applicable.
Main risk class and subclass	Not applicable.
Risk number	Not applicable.
Packaging group	Not applicable.
Bulk Transportation	Not applicable.

### Section 16 – Other information

This SDS was prepared based on current knowledge about the proper handling of the product and under normal conditions of use. Any other way of using the product involving its combination with other materials, as well as ways of using it other than those indicated, are of the user's responsibility. It is warned that the handling of any chemical substance requires prior knowledge of its dangers by the user. The user company is responsible for training its employees and contractors on the possible risks involved in handling this substance.

#### Important abbreviations

CAS: Chemical Abstracts Service (American Chemical Society) (USA).
LC: Lethal Concentration - concentration of a substance in an environment that causes death after a certain period of exposure.
CL50: Lethal concentration for 50% of the test animals.
LD50: Lethal Dose for 50% of the test animals.
EINECS: European Inventory of Existing Commercial Chemical Substances.
GHS: Globally Harmonized System of Classification and Labelling of Chemicals.
IARC: International Agency for Research on Cancer.
IATA: International Air Transport Association.
IATA-DGR: Dangerous Goods by Regulations.
IATA ICAO: International Civil Aviation Organization.
IMDG: International Maritime Code for Dangerous Goods.
IPVS - Immediately Dangerous to Life or Health.
Kow: Partition coefficient n-octanol/water.
LT (NR 15): Tolerance Limit of Regulatory Standard No. 15 - Unhealthy Activities and Operations of the Brazilian Ministry of Labor and Employment.
NIOSH: National Institute for Occupational Safety and Health
NTP: National Toxicology Program.
OSHA: Occupational Safety and Health Administration (USA).
PEL-TWA: Permissible Exposure Limit - time-weighted average.
TLV-STEL: Tolerance limit - short period of time (15 minutes maximum).
TLV-TWA: Tolerance Limit - time-weighted average

### Section 17 - Amendments record

Revision 01	There is no record of modifications.
