

SyrSpend® SF PH4 NEO

Technical Data Sheet

Dry Suspending Agent for Reconstitution

100 ml or 200 ml prefilled container

Document number: FNEOTDSR02
Approved by GQM on date: 20 June 20, 2024
Internal item number (IIN): 105694-114-38

SUPPLIER	<ul style="list-style-type: none"> Company name of supplier: Fagron BV Head quarter address: Fascinatio Boulevard 350, 3065 WB, Rotterdam, The Netherlands Company profile: www.fagron.com 	
DESCRIPTION	<ul style="list-style-type: none"> SyrSpend® SF PH4 NEO is an all-in-one dry suspending and sweetening vehicle for easy compounding of durable and elegant oral liquid dosage forms with a pleasant, taste-masking, neutral taste. This unique vehicle uses <i>active suspending technology</i> for more accurate dosing, by stabilizing the suspension at rest, and actively preventing 'caking' of insoluble ingredients. SyrSpend® SF PH4 NEO is compatible with a broad range of active pharmaceutical ingredients. SyrSpend® SF PH4 NEO is free of sugars, alcohol, parabens, sorbitol, gluten and colorants and is gently preserved. It has low osmolality when reconstituted (<50 mOsmol/kg), making it gastrointestinal friendly. 	
CATEGORY	After reconstitution, SyrSpend® SF PH4 NEO is a ready-to-use suspending vehicle for preparation of oral liquid dosage forms.	
INGREDIENTS	<ul style="list-style-type: none"> Food starch modified Potassium Sorbate Sodium citrate Citric acid Sucralose 	
QUALITIES	<ul style="list-style-type: none"> Ready-to-use all-in-one suspending and sweetening liquid vehicle Easy, two step compounding process For stable and elegant oral liquid dosage forms with a pleasant, taste-masking, neutral taste Low osmolality (<50 mOsmol/kg) Buffered to pH 4.2 for maximum compatibility Gently preserved 	
TECHNICAL DATA	Appearance:	Grainy, white, powder
	Odor:	Mostly odorless
	pH:	4.0 - 4.4 (when reconstituted)
	Product origin	Chemical
	Production method	Mixing
	Chiral or polymorphism	Not applicable
	Shelf life unopened:	24 months
	Storage conditions:	Store below 25°C
SAFETY DATA	All ingredients have been generally recognized as safe by the USFDA, ANVISA and the Regulation (EC) No 1907/2006 (REACH) when used in accordance with their intended purposes. SDS can be downloaded on fagron.com .
