

# Spec sheet

Product Name	Cooking torch burner	Product features / functions
Model	CB-TC-CKGR	<b>Cooking torch burner</b>
Country of Origin	Japan	●4 Safety system
Product Size	6.7" × 1.7" × 3.7"	•Follow Gas torch inspection regulations of JIA
Product Weight	175 g	•Ignite when grasped, extinguish when released
Output	1.9kW (1,600kcal/h)	•The stabilizing stand attaches to the butane canister for more stable and safer operation
Max. Flame Temp	1,400°C	
Amount of gas consumption	Approx. 134g/h	•Equipped with a lock knob to hold the ignition lever when not in use.
Ignition system	Piezoelectric ignition system	Lock knob
Duration of continuous combustion(※)	Approx. 110min	
Material	Main unit: ABS Burner, Flame Outlet: SUS304 Ignition lever :ABS、 Lock knob: ABS	●Useful design
Package Size	3.0" × 4.1" × 7.5"	•Ignition lever is placed at the rear and ignited by grasping it in palm of the hand, it can be easy to grasp.
Package Weight	Approx. 330g	●Function
Carton Size	19.7" × 8.9" × 9.3"	•Eliminate flame adjustment knob, Ignition by one action(only holding the lever)
Carton Weight	Approx. 4.4kg	•Flame shape adjustment knob is for adjusting flame shape from spread to pointed.
Quantity per carton	12 pcs	 Flame shape adjustment knob
UPC	0-22918-10025-2	※The amount of gas consumed for 5minutes at temperature 20-25°C converted to an hourly amount.
